SCHEDULE

**FOURTH REPORT OF THE ELECTIONS AND BOUNDARIES COMMISSION
UNDER THE MUNICIPAL CORPORATIONS ACT, 1990 AND THE
ELECTIONS AND BOUNDARIES COMMISSION (LOCAL GOVERNMENT)
ACT, CHAP. 25:50 FOR THE PURPOSES OF LOCAL GOVERNMENT
ELECTIONS**

**To:
The Honourable Jarrette Narine,
Minister of Local Government,
Kent House, Maraval,
PORT-OF-SPAIN**

1. The Elections and Boundaries Commission has the honour to submit to you its Fourth Report under the Municipal Corporations Act, 1990 (the first Act) and the Elections and Boundaries Commission (Local Government) Act, Chap. 25:50 (the second Act) for the purpose of the next Local Government Elections.

2. The Municipal Corporations Act, 1990 directs in effect (a) by section 11(1), that Councillors for each municipality shall be elected by its electors “in the manner provided for in the Representation of the People Act” Chap. 2:01; and (b) section 11(2) that the number of Councillors to be elected to the Council of each Corporation shall, subject to the provisions of the Elections and Boundaries Commission (Local Government) Act, be as set out in the Third Schedule of the first Act.

3. The relevant provisions of the Elections and Boundaries Commission (Local Government) Act, Chap. 25:50 (the second Act) are as follows:

“4(1) The Commission shall define and review the boundaries of the electoral districts into which an electoral area is, or is to be, divided and shall submit to the Minister reports either—

- (a) showing the constituencies into which it recommends that an electoral area should be divided in order to give effect to the Rules set out in the Second Schedule; or
- (b) stating that, in the opinion of the Commission, no alteration is required to the existing number or boundaries of electoral districts in order to give effect to the said Rules.

(2) Reports under sub-section (1) shall be submitted by the Commission—

- (a) in the case of its First Report after the commencement of the Act, not later than six months after the date of the commencement;
- (b) in the case of any subsequent report, **not less than two nor more than three years from the date of the submission** of its last report; and

- (c) in the case of a report in reference to Tobago, not less than two nor more than four years from the date of the submission of its last report.”.

4. The Commission has in the past submitted Reports of this nature as close as possible to the due date of an election, or as in this case, after its consideration of the updated and relevant topographical data obtained from its 2001, May to October, House-to-House Survey. While this Report reflects the recent data obtained, regrettably it falls outside the deadline prescribed in section 4(2)(b) of the Act aforesaid. Consequently, this report may not be presented to Parliament for its consideration unless its submission to you out of time is first validated. A validation in a like situation was enacted by the “Sixth Report of the Elections and Boundaries Commission (Tobago) Act, 1996” and, in the respectful view of the Commission, it provides an apt precedent to follow in this case.

5. The Second Schedule of the Act prescribes the Rules to be followed by the Commission to review the number and boundaries of the electoral districts into which an electoral area is or is to be divided in order to give effect to the Rules in the said Schedule.

6. For Municipal Corporations, rule 4 as amended provides these directions—

“4. The number of electors in an electoral district of a municipal electoral area shall be the number obtained by dividing the number of electors in that electoral area by the number of electoral districts shown opposite the name of that electoral area in the Third Schedule [of the First Act], but the Commission may in consideration of topographical factors vary such number provided that in no case shall the number of electors in any one electoral district of an electoral area exceed or be less than the number of electors in any other electoral district of that electoral area by more than twenty-five per cent”.

7. For Regional Corporations Rules 1, 2 and 3 provide the following directions:

“1. The number of electors in each electoral district of a regional electoral area shall, so far as practicable, be the number obtained by the application of rule 2, but the Commission may, in consideration of rule 3 vary such number provided that in no case shall the number of electors in any one electoral district of an electoral area exceed or be less than the number of electors in any other electoral district of that electoral area by more than twenty-five per cent”.

“2. The number of electoral districts in a regional electoral area in Trinidad shall be determined as follows:

There shall be in every electoral area a basic number of four electoral districts. To this basic number shall be added the number

obtained by dividing the electorate of the electoral area by 15,000; but where in any electoral area the electorate is—

- (a) less than 15,000, there shall be five electoral districts;
- (b) more than 15,000, any residual number left after dividing the total electorate by 15,000 shall be treated as if that number were 15,000 and one electoral district shall be added in respect of such residual number.

“3. In the division of electoral districts in regional electoral areas natural boundaries such as major highways and rivers shall be used wherever possible”.

8. The last Report of the Commission on its review of electoral boundaries was based on an electorate in the regional electoral areas of Trinidad of 865,120 as published in the Annual List on 1st July, 1998. The electorate on which this Report is based is the Revised List of November 30, 2001 with an electorate of 814,251 a decrease of 50,869.

9. On the basis of this reduced electorate in 2002, the Commission duly reviewed the number and/or boundaries of electoral districts into which each of the 14 electoral areas in Trinidad and Tobago should be divided. After application of the relevant formula for Regional Corporations (rule 2 of the Second Schedule) the Commission concluded as follows:

- (a) no alteration is required to the existing number of electoral districts for Regional Corporations except in the following two:
 - (i) Couva/Tabaquite/Talparo
Electoral Area Increased from
11 electoral districts to 12
 - (ii) Tunapuna/Piarco
Electoral Area Increased from
12 electoral districts to 13.

The increase is occasioned by an erroneous application in its last report in 1998, of the formula set out in 7(2)(b) above. The residual number should have resulted in an additional electoral district at that time for each of the above two (2) electoral areas and the Commission is taking the opportunity to correct this oversight;

- (b) no alteration is required to the existing number of electoral districts for Municipal Corporations as these are fixed by law and cannot be varied;
- (c) sufficient changes in the electorate in 9 electoral areas require alterations to be made to the boundaries of 50 electoral districts therein as indicated in Columns 1 and 2 of the Table hereunder; and
- (d) insufficient changes in the electorate of 76 electoral districts in the electoral areas as indicated in Columns 1 and 3 of the Table hereunder require no alterations to the boundaries of such electoral districts.
