

LEGAL NOTICE No. 244

REPUBLIC OF TRINIDAD AND TOBAGO

THE CUSTOMS ACT, CHAP. 78:01

REGULATIONS

MADE BY THE PRESIDENT UNDER SECTION 13(1) OF THE CUSTOMS ACT

THE CUSTOMS (CARIBBEAN COMMON MARKET)
(ORIGIN OF GOODS) REGULATIONS, 1990

1. These Regulations may be cited as the Customs (Caribbean Common Market) (Origin of Goods) Regulations, 1990. Citation

2. (1) In these Regulations—

“chemical transformation” means the forming of the molecule of the finished product by—

Interpreta-
tion and
commence-
ment

(a) the combination to two or more elements; or

(b) any modification of the structure of the molecule of a compound with the exception of ionisation and, the addition or removal of water of crystallisation;

“Common Market rate of duty” has the meaning assigned to it in Part III of the Act;

“Comptroller” means the Comptroller of Customs and Excise;

“extra-regional materials” means materials imported from outside the Common Market or of undetermined origin;

“Less Developed Country” and “More Developed Country” have the meanings respectively assigned to those expressions in the Second Schedule;

“member state” has the meaning assigned to it in Part III of the Act;

“Minister” means the member of the Cabinet to whom responsibility for Industry and Commerce is assigned;

“Act” means the Customs Act.

(2) In these Regulations any reference to the production of goods, includes a reference to the getting of minerals and the taking of animals (including fish), and any reference to materials except in regulation 6(4) includes a reference to any raw materials, intermediate products, parts or components used in the process of production, repair, renovation or improvement of the goods.

(3) The expressions set out in line one of paragraphs (a), (b) and (c) respectively shall be applied in the manner indicated in those paragraphs—

- (a) “produced from regional materials of”—the materials falling within the tariff headings or Chapters named, may be used only if they qualify to be treated as of Common Market origin within the meaning of regulation 4(1) but this does not preclude the use of regional materials in an earlier stage of production;
- (b) “produced from materials of” and “produced from”—the materials named or designated as the case may be, must be used in the condition in which they are described but this does not preclude the use of the materials in an earlier stage of production;
- (c) “produced from materials not included in”—the materials which fall in the tariff headings named, may not be used if they are imported from outside the Common Market or are of undetermined origin.

(4) Except as is otherwise stated herein these Regulations come into effect on the 1st day of January, 1991.

Application
of regulations

3. These Regulations apply for the purpose of determining the eligibility of goods imported into Trinidad and Tobago for a Common Market rate of duty, whether chargeable on the goods as such or in respect of any article contained in them as a part or ingredient by reason of their having been grown, produced, manufactured, repaired, renovated or improved in, and consigned from a member state; and goods shall not be treated for that purpose as grown, produced, manufactured, repaired, renovated or improved in and as consigned from a Member State unless the appropriate requirements of these Regulations are fulfilled in relation thereto.

Goods to be
treated as of
Common
origin

4. (1) Subject to these Regulations, goods shall be treated as having been grown, produced or manufactured in a member state, where—

- (a) they have been wholly produced within the Common Market; or
- (b) they have been produced within the Common Market wholly or partly from materials imported from outside the Common Market or of undetermined origin by a process which effects a substantial transformation characterised—
 - (i) by the goods being classified in a tariff heading different from that in which any of those materials is classified; or
 - (ii) in the case of the goods listed in Part A of the First Schedule, only by satisfying the conditions therefore specified in that Part.

First
Schedule
Part A

(2) In the case of goods specified in Part B of the First Schedule, the conditions to be complied with shall be as set out in that Part with effect from the dates appearing against the respective goods, in lieu of the conditions applicable prior to those dates in respect of each of those goods.

(3) Goods other than wholly produced goods shall not be treated as being of Common Market origin if they are produced by any operation or process which consists only of one or more of the following, whether or not there is a change of tariff heading—

- (a) operations to ensure the preservation of goods during transport and storage, such as ventilation, spreading out, drying, chilling, placing in salt, sulphur dioxide or other aqueous solution, removal of damaged parts and similar operations;
- (b) simple operations consisting of the removal of dust, sifting or screening, sorting, grading, classifying, matching including the making up of sets of articles, washing, painting and cutting up resulting in the mere reduction in size;
- (c) changes of packing or simple placing in bottles, flasks, bags, cases, boxes, fixing on cards or boards and other simple packing operations;
- (d) affixing marks, labels or other like distinguishing signs on goods or their packages;
- (e) simple mixing of materials imported from outside the Common Market or of undetermined origin if the characteristics of the goods as a whole, are not essentially different from the characteristics of the materials which have been mixed;
- (f) operations which consists solely of welding, soldering, fastening, riveting, bolting and the like or otherwise putting together of all finished parts or components to constitute a finished product.

(4) For the purpose of subregulation (3)(f) the expression "finished parts or components" refers to those articles which are imported into the Common Market in a form or condition which does not require any further fabrication, change in shape or form, resulting in a change in identity or use, or the application of a permanent protective or decorative coating, for the purposes of incorporation in the finished product.

(5) The following are regarded as "wholly produced" in accordance with subregulation (1)—

- (a) mineral products extracted from the ground in any country within the Common Market;
- (b) vegetable products harvested within the Common Market;
- (c) live animals born and raised within the Common Market and products obtained within the Common Market from live animals;
- (d) products obtained by hunting or fishing done within the Common Market;
- (e) marine products taken from the sea by a vessel of a member state;
- (f) used articles fit only for the recovery of materials where such articles have been collected from users within the Common Market;
- (g) scrap and waste resulting from manufacturing operations within the Common Market;
- (h) goods produced within the Common Market exclusively from one or both of the following—
 - (i) goods referred to previously in this subregulation;
 - (ii) goods containing no materials imported from outside the Common Market or goods of undetermined origin or goods containing those materials but which would not be regarded as such under subregulation (8).

(6) The use in the manufacture or production of goods required by subregulation (1) to be wholly produced of small quantities of preservatives, vitamins, colouring and similar materials imported from outside the Common Market or of undetermined origin shall not affect the eligibility of such goods for Common Market treatment as wholly produced.

(7) Subregulations (3)(f) and (4) come into effect on the 1st day of January, 1992.

(8) Where materials containing any element imported from outside the Common Market meet the conditions specified in paragraph (1) those materials shall be regarded as containing no such element.

Repair,
renovation
or improve-
ment of
goods

5. Goods which undergo a process of repair, renovation or improvement, within the Common Market, having been consigned for that purpose from Trinidad and Tobago to a consignee in another member state shall, on their return to Trinidad and Tobago be treated for the purpose of reimportation only, in like manner as goods which are of Common Market origin, provided that the goods are reconsigned

directly to Trinidad and Tobago and, the value of materials imported from outside the Common Market or of undetermined origin which have been used in the process of repair, renovation or improvement does not exceed—

- (a) in the case where the goods have undergone the process of repair, renovation or improvement in a More Developed Country, sixty-five per cent of the cost of repair, renovation or improvement;
- (b) in the case where the goods have undergone the process of repair, renovation or improvement in a Less Developed Country, eighty per cent of the cost of repair, renovation or improvement.

6. (1) In determining for the purposes of regulation 4(1)(a) where goods are grown, produced, manufactured, repaired, renovated or improved, energy, fuel, plant, machinery and tools including any materials used in the maintenance of such plant, machinery or tools, shall be deemed to have been grown, produced, manufactured, repaired, renovated or improved in the Common Market. Materials,
determina-
tion of
origin

(2) In determining for the purposes of regulation 4(1)(b) where any goods were grown, produced, manufactured, repaired, renovated or improved, any of the following, whether or not imported into the Common Market or containing an element so imported, used in their production, manufacture, repair, renovation or improvement shall be deemed not to have been imported into the Common Market and, not to contain any element so imported, that is to say—

- (a) energy, fuel, plant, machinery and tools so used in the Common Market, including any materials used in the maintenance of such plant, machinery or tools;
- (b) materials which, had they been imported into Trinidad and Tobago in the state in which they were used in the production, manufacture or repair, have fallen to be treated under the provisions of paragraph (1)(a) of regulation 4(1)(a) as grown, produced, manufactured, repaired, renovated or improved in the Common Market.

(3) In any case in which there is insufficient information on which to determine whether or not any materials were imported into the Common Market or contain any element so imported, those materials shall be deemed to have been so imported.

7. (1) This regulation has effect for the purpose of determining the value of any materials imported into the Common Market and used in the production or manufacture of any goods. Materials,
determina-
tion of value

(2) The value of the materials referred to in paragraph (1) shall be the customs value determined in accordance with the Sixth Schedule to the Customs Act less the amount of any transport costs incurred in transit through other Member States.

Export price
of goods,
determina-
tion of value

8. (1) This regulation has effect for the purpose of determining the export price of any goods produced or manufactured in, and exported from a member state.

(2) The export price of the goods referred to in subregulation (1) shall be the value accepted for this purpose by the Customs Authority in the exporting Member State but shall not include any transport or insurance costs incurred after the exportation of the goods.

Treatment
of packing

9. Except in those cases provided for under section 243 of the Customs Act, where goods are to be treated separately from their packing, packing of any sort shall be considered as forming a whole with the goods, for purposes only of the application of the percentage value-added condition and no part of any packing required for the transport or storage of goods shall be considered as having been imported from outside the Common Market when determining the origin of the goods as a whole.

Unit of
qualification

10. (1) Each article in a consignment shall be considered separately.

(2) For the purposes of subregulation (1)—

(a) where the Common External Tariff set out in the Schedules to the Customs Act specifies that a group, set or assembly of articles is to be classified within a single heading, such a group, set or assembly shall be treated as one article;

(b) tools, parts and accessories which are imported with an article, and the price of which is included in that of the article, or for which no separate charge is made, shall be considered as forming a whole with the article, where they constitute the standard equipment customarily included on the sale of articles of that kind;

(c) in cases which are not contemplated by subregulations (a) and (b), the goods shall be treated as a single article if they are so treated for purposes of assessing customs duties by the Comptroller.

(3) An unassembled or disassembled article which is imported in more than one consignment because it is not feasible for transport or production reasons to import it in a single consignment, shall where the importer so requests, be treated by the Comptroller as one article.

11. (1) Where it would be impracticable for a producer physically to segregate materials of similar character but different origin used in the production of goods, such segregation may be replaced by an appropriate accounting system, which ensures that no more goods received Common Market tariff treatment than would have been the case if the producer had been able physically to segregate the materials.

Segregation
of materials

(2) The accounting system referred to in subregulation (1) shall conform to such conditions as may be agreed upon by the Comptroller in order to ensure the application of adequate control measures.

12. Where a manufacturer of goods for which the qualifying condition for eligibility for a Common Market rate of duty is "wholly produced" or "produced from regional materials" is unable by reason of circumstances beyond his control to obtain supplies of the regional materials required to be used, he shall so inform the Minister who may allow the use of extra-regional materials subject to such conditions as the Minister may impose.

Use of extra-
regional
materials

13. Goods shall be treated as consigned to Trinidad and Tobago from a member state if they are shown to the satisfaction of the Comptroller to have been consigned direct to Trinidad and Tobago from a place in the Common Market outside Trinidad and Tobago, and the application to such consignment of any rate of duty imposed under the preferential tariff, being a rate expressed to be applicable as mentioned in section 12(1) of the Act, shall not be deemed to be contrary to section 11(1) of the Act by reason only that such place is not a port.

Consignment
of goods to
Trinidad and
Tobago

14. (1) In determining for the purposes of these Regulations where natural produce of the sea or goods produced or manufactured therefrom at sea, are to be treated as produced or manufactured, anything done by or on board a vessel of a member state, shall be treated as done in that member state and any such produce of the sea or goods produced or manufactured therefrom at sea, if brought direct to Trinidad and Tobago are to be deemed to be consigned from that member state.

Natural
produce of
the sea

(2) For the purposes of this regulation and regulation 4(6)(f), a vessel shall be treated as a vessel of a member state only if:

- (a) it is registered in a member state;
- (b) it carries a complement (inclusive of the master thereof) of which not less than three-fourths are nationals of member states; and

*Customs (Caribbean Common Market) (Origin of Goods)
Regulations, 1990*

- (c) it is majority owned and operated by:
- (i) a national of member states;
 - (ii) a government of a member state; or
 - (iii) a statutory corporation of a member state.

(3) For the purposes of this regulation, a person shall be regarded as a national of a member state if he:

- (a) is a citizen of that State;
- (b) has a connection with that State of a kind which entitles him to be regarded as belonging to, or, if so expressed, as being a native or resident of that State for the purpose of the laws relating to immigration as are for the time being in force in that State; or
- (c) is a company or other legal person constituted under the laws of that State which is substantially owned and effectively controlled by persons described in subregulations (a) and (b), such company or other legal person being engaged in substantial business actively within the Common Market.

Proof of
importers
statement

15. (1) Where any question arises whether goods imported into Trinidad and Tobago are to be treated as being eligible for a Common Market rate of duty, the Comptroller may require the importer of the goods to furnish him, in such form as he may require, proof of any statement made to him as to any fact necessary to determine that question, and if such proof is not furnished to his satisfaction, the question may be determined without regard to that statement.

(2) Where the evidence of origin produced by the importer is inadequate, the Comptroller shall, except where the goods are subject to import restrictions or prohibitions, allow delivery of the goods to the importer on condition that he puts up security for any duty or other charge which may be payable.

(3) Where because of the inadequacy of the evidence furnished the Comptroller requires further evidence to be produced, persons in another member state concerned in the transaction may furnish that evidence to a governmental authority or authorised body designated by that State as the appropriate authority to verify that evidence, and the evidence shall be accordingly verified by that authority and transmitted to the Comptroller.

FIRST SCHEDULE

[Regulation 4(1)]

CONDITIONS TO BE SATISFIED FOR CARICOM AREA TREATMENT

Part A

NOTES

The application of the Schedule is governed by the following general notes:

- (i) In this list, where a tariff heading number is preceded by the word "ex", only those products of that heading specified in the column headed "Product" are referred to. Descriptions of finished products and of materials are to be interpreted according to the relative Section and Chapter Notes of the Harmonised Commodity Description and Coding System (HS) and the General Rules for the Interpretation of the Harmonised System.
- (ii) Four figure references of the type "04.02", "17.04", etc. are references to the headings of the Harmonised Commodity Description and Coding System (HS).
- (iii) Where the condition to be complied with for any product does not prescribe the use of regional materials, it shall always be understood that materials imported from outside the Common Market or of undetermined origin may be used. If such materials are used in a more advanced state of processing than that specified in the list, the finished product shall be ineligible for Common Market treatment.
