

## CHAPTER 12. No. 15.

## QUARANTINE.

Ordinances.  
No. 19-1944.  
,, 29-1945.

AN ORDINANCE RELATING TO QUARANTINE AND  
SIMILAR MATTERS.

Commence-  
ment.

[12th October, 1944.]

Short Title.

1. This Ordinance may be cited as the Quarantine Ordinance.

Interpre-  
tation.

2. (1) In this Ordinance—

“ aerodrome ” includes both land and water aerodromes;

“ aircraft ” includes any machine which can derive support in the atmosphere from the reactions of the air and is intended for aerial navigation;

“ commander ” includes any person for the time being in charge or command of an aircraft;

“ master ” includes any person for the time being in charge or command of a ship;

“ port ” includes any place at which ships arrive or from which they depart;

“ ship ” includes a vessel or boat.

(2) References hereinafter made to “ this Ordinance ” shall be deemed to include a reference to any regulations, rules or orders in force by virtue thereof.

Establish-  
ment of  
Quarantine  
Authority  
and appoint-  
ment of staff.

3. (1) For the purposes of this Ordinance, there shall be a Quarantine Authority.

(2) The person from time to time holding the office of Director of Medical Services shall be the Quarantine Authority.

(3) The Governor may appoint Health Officers, Visiting Officers, quarantine guards and such other employees and servants as may be necessary for the purposes of this Ordinance.

(4) Health Officers and Visiting Officers shall, in the exercise of their powers and the performance of their duties under this Ordinance, act under the general or special direction and control of the Quarantine Authority.

4. (1) The Governor in Council may make regulations, as respects the whole or any part of the Colony, including the ports and coastal waters thereof, for preventing—

Power to  
make  
regulations.

(a) danger to public health from ships or aircraft or persons or things therein, arriving at any place; and

(b) the spread of infection by means of any ship or aircraft about to leave any place, or by means of any person or thing about to leave any place in any ship or aircraft.

(2) Without prejudice to the generality of the powers conferred by subsection (1) of this section, regulations under that subsection may, for the purposes therein set forth, make provision for all or any of the following matters, that is to say—

(a) the collection and transmission of epidemiological and sanitary information;

(b) the signals to be displayed by ships or aircraft;

(c) the questions to be answered and information (whether oral or documentary) to be supplied by masters, commanders and other persons who are or have been on board any ship or aircraft or are desirous of boarding any ship or aircraft;

(d) the detention of ships or aircraft and of persons and things that are or have been on board them;

(e) the destruction of things which are or have been on board ships or aircraft;

(f) the duties to be performed by masters, commanders and other persons who are or have been on board ships or aircraft or who are desirous of boarding any ship or aircraft;

- (g) authorising the making of charges and providing for the recovery of charges and expenses;
- (h) the enforcement of the regulations;
- (i) the conferring on appropriate officers of powers to board ships and aircraft and to enter premises.

(3) Regulations made under subsection (1) shall not have any force or effect until confirmed by resolution of the Legislative Council. In confirming any regulations, the Legislative Council may make any amendments thereto which it may deem desirable.

1st and 2nd  
Schedules.

(4) The regulations contained in the First and Second Schedules hereto shall be deemed to have been made and confirmed under the provisions of this section.

Power to  
make rules.

5. (1) Subject to the provisions hereinafter contained, the Quarantine Authority may make rules for implementing or carrying into effect any regulations in force by virtue of section 4, and for supplementing any such regulations as regards any matters for which the Quarantine Authority may deem it expedient to provide with a view to carrying into effect the purposes set forth in subsection (1) of that section.

(2) Without prejudice to the generality of the powers conferred by subsection (1) of this section, rules under that subsection may, for the purposes therein set forth, make provision for all or any of the following matters, that is to say—

- (a) regulating the granting or withdrawal of pratique;
- (b) regulating the issuing of bills of health, certificates, and other documents;
- (c) the governance of quarantine mooring stations, anchorages and berthing places, and of places where persons or things are detained or taken for examination and of places used for the observation or isolation of persons;
- (d) the sanitation of ports and aerodromes and their surroundings, including measures for keeping them free from rodents, mosquitoes and other vectors of disease;
- (e) fixing the charges sanctioned by regulations in

force by virtue of section 4 and providing for their incidence.

(3) The power to make rules under this section shall be without prejudice to any power to make regulations under section 4: Provided that rules shall not have any force or effect if and to the extent that they are at any time inconsistent with any regulations in force by virtue of section 4.

(4) Rules made by the Quarantine Authority under this section shall not have any force or effect unless approved by the Governor in Council. In approving any rules, the Governor in Council may make any amendments thereto which he may deem desirable.

6. (1) When in the opinion of the Quarantine Authority an emergency exists, the Quarantine Authority may by order direct special measures to be taken during the continuance of that emergency for any of the purposes specified in sections 4 and 5, and any such order shall have effect notwithstanding anything to the contrary in any regulations or rules in force by virtue of those sections.

Power to  
make orders  
in  
emergency.

(2) An order made under subsection (1) of this section may be varied or rescinded by order of the Governor.

7. (1) Any person who—

(a) refuses to answer or knowingly gives an untrue answer to any inquiry made under the authority of this Ordinance, or intentionally withholds any information reasonably required of him by any officer or other person acting under the authority of this Ordinance, or knowingly furnishes to any such officer or other person any information which is false, or

Offences and  
penalties.

(b) refuses or wilfully omits to do any act which he is required to do by this Ordinance, or refuses or wilfully omits to carry out any lawful order, instruction or condition made, given or imposed by any officer or other person acting under the authority of this Ordinance, or

(c) assaults, resists, wilfully obstructs, or intimidates

any officer or other person acting under the authority of this Ordinance, or offers or gives a bribe to any officer or person in connection with his powers or duties under this Ordinance, or being such officer or person, demands, solicits or takes a bribe in connection with his powers or duties under this Ordinance; or otherwise obstructs the execution of this Ordinance,

shall be guilty of an offence and shall be liable on conviction to a fine of nine hundred and sixty dollars or to imprisonment for six months or to both such fine and imprisonment.

(2) Any person who is guilty of any other offence against this Ordinance shall be liable on conviction to a fine of nine hundred and sixty dollars or to imprisonment for six months or to both such fine and imprisonment.

(3) All offences against this Ordinance may be prosecuted summarily under the Summary Courts Ordinance.

Rewards to informers.

8. The Governor may direct that any part of any fine recovered in respect of any offence against this Ordinance shall be paid to any person who has given information leading to the conviction of the offender.

Recovery of expenses and charges.

9. (1) All expenses and charges payable to the Quarantine Authority under this Ordinance may be sued for and recovered by him before any court of competent jurisdiction, and a certificate purporting to be under the hand of the Quarantine Authority to the effect that the expenses or charges sued for are due and payable shall be received in evidence and shall be sufficient evidence of the facts therein stated unless the contrary be shown.

(2) Any sum received or recovered by the Quarantine Authority in payment of expenses or charges payable to him under this Ordinance shall be forthwith paid by him into the Treasury for the use of the Colony.

Duty and power of the Police.

10. (1) It shall be the duty of every member of the Police Force to enforce (using force if necessary) compliance with this Ordinance and with any order, instruction or condition lawfully made, given or imposed by any officer

or other person under the authority of this Ordinance; and for such purpose any member of the Police Force may board any ship or aircraft and may enter any premises without a warrant.

(2) Any member of the Police Force may arrest without a warrant any person whom he has reasonable cause to believe to have committed any offence against this Ordinance.

(3) In this section the expression "member of the Police Force" includes a member of any police organisation constituted by law who has the general powers of a member of the Police Force.

### FIRST SCHEDULE.

(Section 4.)

#### PART I.

##### INTRODUCTORY.

1. These Regulations may be cited as the Quarantine (Maritime) Regulations. Short title.

2. In these Regulations, unless the context otherwise requires—

"aedes" includes any potential insect vector of yellow fever;

"approved port" means a port or place in which a Health Officer is authorised by the Governor to grant deratisation certificates and deratisation exemption certificates;

"authorised officer" means a person authorised to act as such in the case in question by virtue of an order made under regulation 3;

"the Convention" means the International Sanitary Convention signed at Paris on the 21st of June, 1926, of which relevant extracts are set forth in the Appendix hereto;

"crew" includes any person having duties on board the ship in connection with the voyage thereof or employed in any way in the service of the ship, the passengers or the cargo;

"day" means an interval of twenty-four hours;

"deratisation certificate" and "deratisation exemption certificate" mean respectively a deratisation certificate or a deratisation exemption certificate issued under regulations 27 and 28 or otherwise issued in conformity with Article 28 of the Convention;

"foreign port" means a port or place situated elsewhere than in the Colony;

Interpretation.

“Health Officer” means the appropriate officer appointed as such under section 3 of the Ordinance, and includes a medical practitioner acting under the direction of the Quarantine Authority or a Health Officer for the purpose of executing these Regulations or any of them;

“immune,” in relation to yellow fever, means that the person in question produces a certificate to the satisfaction of the Health Officer issued by a medical officer or institution recognised by the Quarantine Authority—

(a) to the effect that the possessor of the certificate has been inoculated with a vaccine of certified proven potency against yellow fever, not more than four years and not less than ten days previously; or

(b) to the effect that the blood of the possessor of such certificate has been examined and found to be immune to yellow fever, and stating to the best of the information and belief of a medical officer or institution issuing the same whether such immunity has been caused artificially or naturally: Provided that if such certificate relates to immunity caused artificially, it shall only be valid for a period of twelve months from the date of the examination to which it relates;

“infected area,” “infected port,” “infected place” and “infected local area” mean a local area in which the Health Officer has reason to believe that—

(a) a first case of plague recognised as non-imported has occurred or in which rodent plague exists or has existed during the previous six months; or

(b) cholera has formed a foyer, that is to say that the occurrence of new cases beyond the immediate surroundings of the first case proves that the spread of the disease has not been limited to the place where it began; or

(c) a first case of yellow fever recognised as non-imported has occurred; or

(d) typhus or smallpox exists in epidemic form, that is to say that the occurrence of new cases indicates that the spread of the disease is not under control;

and includes a port or sea-board which serves an infected local area;

“infectious disease” means any epidemic or acute infectious disease, and includes open pulmonary tuberculosis but does not include venereal disease;

“isolation” means the removal to a hospital or other suitable place approved by the Health Officer of a person suffering, or suspected to be suffering, from an infectious disease, and his detention therein, until, in the opinion of the Health Officer—

(a) he is free from infection, or

(b) if not so free, he may be discharged without undue danger to public health;

“local area” means a well-defined area such as a province,

district, island, town or quarter of a town, port or village, whatever may be its extent or population;

“master,” “port” and “ship” have the meanings assigned to them in section 2 of the Ordinance;

“observation” means the detention under medical supervision of persons in such places and for such periods as may be directed by a Health Officer;

“passenger” means any person, other than a member of the crew, carried in a ship;

“period of incubation” for the purpose of these Regulations shall be deemed to be—

For plague	...	...	...	...	6 days.
For cholera	...	...	...	...	5 days.
For yellow fever	...	...	...	...	6 days.
For typhus	...	...	...	...	12 days.
For smallpox	...	...	...	...	14 days.

“Quarantine Authority” means the Quarantine Authority established under the powers conferred by section 3 of the Ordinance;

“specified infectious disease” means plague, cholera, yellow fever, typhus and smallpox;

“suitably equipped port” in relation to any disease means a port recognised by the Quarantine Authority as possessing the necessary organisation and equipment for dealing with that disease;

“surveillance” means that persons are not detained, that they may move about freely, but that they are required to report for medical examination at such intervals and during such period and to such persons as may be directed by a Health Officer;

“the Ordinance” means the Quarantine Ordinance;

“valid” in relation to a deratisation certificate or deratisation exemption certificate means issued within the last preceding six months, or, where the ship in respect of which the certificate is issued is proceeding to its home port, the last preceding seven months;

“Visiting Officer” means the appropriate officer appointed as such under section 3 of the Ordinance or a person authorised to act as such in the case in question by virtue of an order made under regulation 3, and includes a Health Officer where the context so permits.

3. (1) The Quarantine Authority may by order authorise any officer or person or any member of a class of officers or persons to act as a Visiting Officer or as an authorised officer for the purposes of these Regulations or for some specified purpose of these Regulations. Officers.

(2) Every such officer or person shall exercise his powers and perform his duties subject to the general or special direction and control of the Quarantine Authority and the Health Officer.

## PART II.

## SHIPS ARRIVING FROM FOREIGN PORTS.

Declarations  
of health.  
Schedule A.

4. The master of a ship approaching the Colony from a foreign port shall ascertain the state of health of all persons on board and shall prepare and sign a declaration of health in the form in Schedule A hereto. If a ship's surgeon is carried on board, he shall countersign the declaration.

Radio  
pratique.

5. (1) The master of any ship approved by the Quarantine Authority as eligible for radio pratique may apply for the same by sending to the Visiting Officer not more than twelve and not less than four hours before the expected arrival of the ship at a port of the Colony a wireless message embodying such of the items of information set out in Schedule B hereto as are applicable.

Schedule B.

(2) Every such message shall, except in cases in which the Quarantine Authority otherwise directs, conform with the section relating to routine quarantine messages of the 1931 International Code of Signals.

(3) The Visiting Officer may grant radio pratique to the ship if he is satisfied from the wireless message aforesaid and other information (if any) in his possession that no person on board the ship has symptoms which may be indicative of infectious disease and that there are no circumstances in relation to the ship requiring medical attention. The Visiting Officer (if he is not the Health Officer) shall, on receiving information in the wireless message or otherwise that a person on board the ship has symptoms which may be indicative of infectious disease or that there are circumstances in relation to the ship requiring medical attention, forthwith inform the Health Officer.

(4) When a ship has been granted radio pratique, the master shall, immediately on arrival at a port of the Colony, deliver or cause to be delivered to the Health Officer the relevant declaration of health, the ship's bill of health (if any) and the ship's deratisation certificate or deratisation exemption certificate (if any). Any bill of health, deratisation certificate or deratisation exemption certificate shall be returned after inspection.

Flags and  
signals.  
Schedule C.

6. The master of a ship coming from a foreign port shall comply with the provisions as to flags and signal lights contained in Schedule C hereto.

Ships not  
granted radio  
pratique to  
be visited.

7. (1) Every ship arriving in the Colony from a foreign port, if radio pratique has not been granted, shall be visited on arrival in the Colony by the Visiting Officer and the master shall thereupon surrender to the Visiting Officer the declaration of health and present to him for inspection any other ship's papers which the Visiting Officer may desire to inspect.

(2) The Visiting Officer is hereby authorised to put to the master and to the ship's surgeon (if any) and to any person on board the ship all such questions as he may deem advisable for the execution of these Regulations.

Restrictions  
on boarding  
or leaving  
ships coming  
from foreign  
ports.

8. (1) No person, other than a pilot or a person acting in execution of these Regulations, shall, without the general or special permission of the Health Officer, board or leave a ship coming from a foreign port before the

same has been granted pratique, and the master shall cause all reasonable steps to be taken to enforce this provision.

(2) Before any person, other than a pilot or a person acting in the execution of these Regulations, leaves a ship arriving in the Colony from a foreign port, he shall furnish all such information as may reasonably be required by the Visiting Officer or by an authorised officer, including information as to his name, state of health and origin, and information as to places recently visited and his destination and his address there and shall, if so required by the Health Officer or an authorised officer, complete and sign a certificate of origin and destination in a form from time to time approved by the Quarantine Authority.

9. (1) A Visiting Officer may grant pratique to a ship on visiting it if he is satisfied from the declaration of health and otherwise that during the voyage, or if the voyage has lasted longer than six weeks, during the six weeks immediately preceding arrival—

Granting of  
pratique by  
Visiting  
Officer.

(a) there has been no death or case of illness on board suspected to be due to infectious disease; and

(b) there has been no plague or undue mortality among rats or mice on board; and

(c) the ship has not called at an infected port; and

(d) the ship was not overcrowded or in an insanitary condition.

(2) If the Visiting Officer is not a Health Officer and is not so satisfied—

(i) he may refuse pratique and thereupon the ship shall be deemed to be in quarantine and the Visiting Officer shall immediately inform the Health Officer of such refusal;

(ii) the Health Officer shall forthwith visit the ship and thereupon regulation 7 shall apply as though the ship had not been previously visited.

(3) If the Visiting Officer is a Health Officer, then even if he is not so satisfied, he shall grant pratique if he is of opinion that none of the measures for which provision is made in these Regulations, other than those relating to persons or things disembarked, require to be taken or that all such measures as are appropriate have been duly taken. If he is not of that opinion he may refuse pratique and thereupon the ship shall be deemed to be in quarantine.

10. The master of a ship, ship's surgeon, or other person (as the case may be) who contravenes or fails to comply with the provisions of regulations 4, 5 (4), 6, 7 or 8 shall be guilty of an offence against these Regulations.

Offences.

### PART III.

#### PROVISIONS AS TO SHIPS IN QUARANTINE.

11. A Visiting Officer may give such directions as he may deem expedient to the master of a ship in quarantine for securing the detention of the ship pending the granting of pratique, including directions (if he thinks fit) to take the ship to a specified mooring station, anchorage or

Detention  
of ships.

berthing place generally or specially approved by the Harbour Master (or other appropriate authority) for the use of ships in quarantine.

Quarantine  
guards.

12. A Visiting Officer may place on board any ship in quarantine such quarantine guards as he may think necessary.

Specified  
infectious  
diseases.

13. In relation to specified infectious diseases, the measures which may be taken and the circumstances in which they may be taken shall be such as are specified in Articles 24 to 27 (both inclusive) and Articles 29 to 42 (both inclusive) of the Convention, and for that purpose these Regulations shall have effect as though those Articles were part of these Regulations: Provided that references in those Articles to the port sanitary authority or the port authorities or the sanitary authority of the port or the Government, and so forth, shall be construed as though they were references to the Quarantine Authority, the Health Officers or an authorised officer.

Other infec-  
tious  
diseases.

14. (1) When any infectious disease other than a specified infectious disease has occurred on board a ship during the six weeks immediately preceding its arrival at a port of the Colony, the Health Officer may require all or any of the measures specified in paragraph (2) of this regulation to be taken.

(2) Such measures may include—

(a) medical inspection of the crew and passengers;

(b) isolation of the sick either on board or on shore;

(c) surveillance of the crew and passengers, who have been exposed to infection, for 14 days or the period of incubation of the disease (whichever is the shorter period) from the last day of possible exposure to infection;

(d) disinfection of clothing and other articles and of the parts of the ship which the Health Officer may consider infected;

(e) examination of food and water if considered sources of infection and the application of appropriate measures;

(f) destruction of animals, birds and insects which may be considered as potential vectors of the disease.

#### PART IV.

##### PROVISIONS AS TO SHIPS DEPARTING.

General  
power to ex-  
amine  
persons  
embarking.

15. The Health Officer may examine any person intending to embark in a ship whom he suspects to be suffering from an infectious disease and if, after examination, he is of opinion that the person shows symptoms of any infectious disease he may prohibit his embarkation.

Infected  
areas in the  
Colony.

16. When any area of the Colony is an infected area, the Health Officer shall cause to be taken measures—

(a) to secure the medical examination of all persons about to leave that area by sea so as to prevent the embarkation of persons showing symptoms of any specified infectious disease and of persons in such relations with the sick as to render them liable to transmit the disease;

Suggested, to be added to 13

(2) When in any part of Trinidad together there exists an infectious disease, not being a specified infectious disease, but nevertheless being the subject of a formal notification under any international sanitary or quarantine convention for the time being in force, then a Health Officer, unless he is satisfied that adequate measures can be taken on board, may cause measures to be taken -

- (a) to secure the medical examination of all persons about to leave that area by ship so as to prevent the embarkation of persons showing symptoms of any such infectious disease, and of persons in such relations with the sick as to render them potential transmitters of the disease;
- (b) to secure the examination of any clothing, bedding or other article of personal use which belongs to or is in use or intended for use by the crew of any person who proposes to embark or is on board and which, in the opinion of the Health Officer or an authorized officer may have been exposed to infection; and to secure the disinfection or destruction of any such clothing, bedding or other article of personal use;
- (c) to secure the disinfection to the satisfaction of a Health Officer or an authorized officer of any parts of the ship which, in the opinion of the Health Officer or the authorized officer, may be infected.

(b) in the case of plague, to prevent rats gaining access to the ship, and, where indicated, to secure the destruction of rats and mice on board;

(c) in the case of cholera, to ensure that drinking water and foodstuffs taken on board are wholesome, and that water taken in as ballast is disinfected if necessary;

(d) in the case of yellow fever, to prevent mosquitoes gaining access to ships;

(e) in the case of typhus, to secure the delousing before embarkation of all persons suspected of being infested with lice;

(f) in the case of smallpox, to disinfect old clothes and rags before they are packed or baled and to ensure that persons from the infected area are protected against the disease before embarkation;

(g) if the Health Officer thinks fit, to secure the examination of any clothing, bedding or other article of personal use which belongs to or is in use or is intended for use by the crew or any person who proposes to embark or is on board and which, in the opinion of the Health Officer or an authorised officer may have been exposed to infection, and to secure the disinfection or destruction of any such clothing, bedding or other article of personal use;

(h) if the Health Officer thinks fit, to secure the disinfection to the satisfaction of the Health Officer or an authorised officer of any parts of the ship which, in the opinion of the Health Officer or authorised officer, may be infected.

17. (1) Any person who—

(a) knowing or having reason to suspect that he is suffering from an infectious disease embarks in or is conveyed in a ship leaving the Colony without the permission of the Health Officer, or

(b) embarks in a ship about to leave an infected area of the Colony without submitting himself for examination by the Health Officer, or exports or takes on board any such ship any merchandise, stores, baggage, personal effects or other articles from such area without submitting them for examination, and, if required, disinsectisation and disinfection by the Health Officer or an authorised officer, or does any of such things as aforesaid contrary to any prohibition or restriction which the Health Officer may impose with a view to preventing the spread of infection,

shall be guilty of an offence against these Regulations.

(2) Any master of a ship, ship owner or ship's agent, who knowingly conveys or permits the conveyance in a ship from an infected area of the Colony of any person or thing contrary to any prohibition or restriction imposed by or under regulations 15 or 16, shall be guilty of an offence against these Regulations.

18. The Health Officer or an authorised officer shall issue free of charge on request to any ship immediately prior to its departure from the Colony a bill of health in the form in Schedule D hereto. When the ship is about to depart from an infected area, particulars of the disease shall be entered in the bill of health.

Offences.

Bills of  
Health.  
Schedule D.

## PART V.

## MISCELLANEOUS PROVISIONS AS TO SHIPS ARRIVING AND IN PORT.

General power to inspect ships, etc.

19. The Health Officer or an authorised officer shall be entitled at any time to visit and inspect any ship arriving in or lying in a port of the Colony (whether or not the ship has come from a foreign port) and—

(a) in any circumstances which would justify the refusal of pratique under these Regulations in the case of ships arriving from foreign ports, direct that the ship shall be deemed to be in quarantine for the purposes of all, or any of these Regulations;

(b) direct that any such action shall be taken as would be appropriate under these Regulations, in the like circumstances in the case of ships arriving from foreign ports.

Power to send ship to another port.

20. If the Health Officer is of opinion that the port of the Colony at which a ship arrives is not suitably equipped to deal with it for the purposes of these Regulations, he may order the master of the ship to take the ship to a port of the Colony which is suitably equipped.

General powers.

21. (1) A Health Officer may, in relation to any ship arriving in or lying in a port of the Colony (whether the ship has come from a foreign port or otherwise)—

(a) medically inspect the crew and passengers;

(b) detain any such persons for medical examination;

(c) prohibit any such persons from leaving the ship save upon such specified conditions as appear to the Health Officer to be reasonably necessary to prevent the spread of infection;

(d) require the master to take or assist in taking such steps as, in the opinion of the Health Officer, are reasonably necessary for preventing the spread of infection by any such person, for the destruction of vermin, and for the removal of conditions in the ship likely to convey infection, including conditions the existence of which might facilitate the harbouring of vermin.

Duties of master.

22. Without prejudice to any other provisions of these Regulations, it shall be the duty of the master of every ship which is in any port of the Colony forthwith to notify a Visiting Officer (whether the information is requested or not) of any case or suspected case of infectious disease in the ship and of any circumstances on board which are likely to lead to infection or the spread of infectious disease including in his notification particulars as to the sanitary condition of the ship and the presence of dead rats or mice or mortality or sickness among rats or mice in the ship; and any master of a ship who contravenes or fails to comply with these requirements shall be guilty of an offence against these Regulations.

Repetition of sanitary measures not necessary.

23. A ship, which before arriving at a port in the Colony has already been subjected to sanitary measures to the satisfaction of the Health Officer of that port, shall not again be subjected to such measures unless some new incident has occurred which so requires.

24. The master of a ship at or approaching a port of the Colony who does not desire to submit to any requirements of these Regulations which may be applicable shall be at liberty to put to sea without being subjected to control under these Regulations if he notifies the Health Officer of his intention: Provided that if he desires to land goods, to disembark passengers or to take on fuel, foodstuffs or water, the Health Officer may grant him permission so to do subject to such conditions, in conformity with the provisions of these Regulations, as the Health Officer thinks fit; and the master shall proceed accordingly and put to sea with due despatch, and if he fails so to do he shall be guilty of an offence against these Regulations.

Saving in the case of ships continuing voyage.

25. (1) Any person who leaves any ship contrary to the provisions of these Regulations may, without prejudice to any other liability, be apprehended by a Visiting Officer, authorised officer, quarantine guard or member of any police force constituted by law in the Colony and compelled to return to the ship and, if he is not a passenger or member of the crew, may be dealt with as a passenger.

Powers as to persons who unlawfully board or leave ships.

(2) Any person who boards a ship contrary to any of the provisions of these Regulations may, if he is not a passenger or member of the crew, be dealt with as a passenger.

26. A person on board a ship at a port of the Colony who knows or has reason to suspect that he is suffering from an infectious disease shall in no case land without the permission of the Health Officer, and any person who contravenes this provision shall be guilty of an offence against these Regulations.

Persons suffering from infectious diseases not to land.

## PART VI.

### DERATISATION OF SHIPS.

27. (1) On the arrival of a ship from a foreign port at an approved port, the Visiting Officer shall call for the deratisation certificate or deratisation exemption certificate, and if such certificate is not forthcoming or is no longer valid he shall inform the Health Officer accordingly.

Deratisation.

(2) The Health Officer shall then arrange for the ship to be inspected to ascertain whether it is maintained in such a condition that the number of rats on board is kept down to the minimum, and if he is so satisfied, he shall sign and issue a deratisation exemption certificate.

(3) If, after the ship has been inspected, the Health Officer is of the opinion that it is not maintained in such a condition that the number of rats on board is kept down to the minimum, he shall order the ship to be deratised in a manner to be specified or approved by him, and the master shall forthwith make arrangements for the deratisation of the ship to be carried out to the satisfaction of the Health Officer. After the deratisation has been completed to his satisfaction, the Health Officer shall sign and issue a deratisation certificate.

(4) When, in the opinion of the Health Officer, it is not possible efficiently to carry out deratisation of the ship, because of its cargo or for other reasons, he may cause the ship to work in quarantine and he shall endorse the time-expired deratisation or deratisation exemption

certificate (if there is one) and make an entry in the bill of health to be issued to the ship before it leaves port, to the effect that the ship was inspected and found rat infested but that it was impracticable to carry out deratisation.

Ships  
arriving with  
deratisation  
certificates.

28. A ship arriving from a foreign port and carrying a valid deratisation certificate or deratisation exemption certificate, whether or not it has been granted pratique on arrival, may nevertheless be inspected by or on behalf of the Health Officer, should the Health Officer consider such inspection justified, to determine the extent of rat infestation. In exceptional cases and for well-founded reasons, which shall be communicated in writing to the master of the ship and to the Quarantine Authority, the Health Officer may, if the port is an approved port, order the ship to be deratised, notwithstanding anything to the contrary in regulations 23 and 31 of these Regulations, and, when deratisation has been completed to his satisfaction, he shall issue a deratisation certificate.

Form of  
certificates.  
Schedule E.

29. Deratisation certificates and deratisation exemption certificates shall be in the form prescribed in Schedule E hereto.

Where ship  
harbours rats  
but deratisa-  
tion not  
possible.

30. When it is intended to take a ship, which is not infected or suspected, alongside a jetty or quay and the Health Officer has reason to believe that the ship harbours rats, he may, when it is not possible or desirable to undertake deratisation of the ship, order that it be fended off or moored away from the jetty or quay, to a distance of at least 6 feet, that all ropes and hawsers between the ship and the shore are fitted with efficient rat-guards, that between dusk and dawn gangways are drawn up or brilliantly lighted, and that cargo is unloaded in such a manner as to prevent rats gaining access to the shore.

General  
deratisation  
measures.

31. (1) Whenever any ship is at a port of the Colony, whether an approved port or not, and the Health Officer has reason to believe that the number of rats on board is not kept down to a minimum, he may require the owner, master or ship's agent to take such steps, under the direction and to the satisfaction of the Health Officer, as are practicable, in the opinion of the Health Officer, to secure complete or partial deratisation: Provided that this regulation shall not apply to ships which are in possession of valid deratisation certificates or valid deratisation exemption certificates.

(2) Without prejudice to the provisions of paragraph (1), masters or owners of coastal vessels and harbour lighters may be required by the Quarantine Authority to deratise them in such manner and at such intervals as the Quarantine Authority may direct, and if any requirement under this paragraph is not complied with, the master and owner shall be guilty of an offence against these Regulations.

## PART VII.

### MERCHANDISE AND BAGGAGE.

Merchandise,  
etc., not to  
be put on  
ship in  
quarantine  
without  
permission.

32. Without the general or special permission of the Health Officer, but subject to the provisions of regulation 33, no merchandise, stores,

baggage, personal effects or other articles shall be taken off or put on board a ship which has not been granted pratique, and any person who contravenes this provision shall be guilty of an offence against these Regulations.

33. The entry of merchandise and baggage arriving at a suitably equipped port of the Colony shall in all cases be permitted, but the following measures may be applied where, in the opinion of the Health Officer, there is danger of infection from a specified infectious disease—

Entry of merchandise and baggage to be permitted subject to certain measures.

(a) in the case of plague, disinsectisation or disinfection of recently used bedding and clothing and prohibition of the unloading of merchandise from an infected area which is likely to harbour rats or fleas unless adequate precautions to prevent the escape of rats and fleas and to ensure their destruction are taken;

(b) in the case of cholera, disinfection of recently used bedding and clothing and prohibition of the importation of fresh fish, shell fish and vegetables;

(c) in the case of typhus, disinsectisation of recently used bedding and clothing and of rags not carried as merchandise in bulk;

(d) in the case of smallpox, disinfection of recently used bedding and clothing and of rags not carried as merchandise in bulk.

34. The Health Officer or an authorised officer may order clothes and other articles of small value (including rags not carried as merchandise in bulk) which he considers likely to convey a specified infectious disease to be destroyed.

Destruction of clothes, etc., likely to carry infections.

35. Nothing in these Regulations shall render liable to detention, disinfection or destruction or shall affect any article forming part of any mail (other than parcel mail) conveyed under the authority of the Postmaster General or of the postal administration of any other Government.

Saving of mails.

36. When merchandise, stores, baggage, personal effects or other articles have been subjected to any measures prescribed in this Part of these Regulations, the Health Officer or an authorised officer shall issue free of charge, on request by the ship owner, master or ship's agent, a certificate setting out the measures taken and the reasons therefor.

Certificates.

## PART VIII.

### OBSERVATION AND SURVEILLANCE.

37. When any place is in use for observation or isolation purposes, no person shall enter or leave the place and no article shall be taken to or removed from the place except with the general or special permission of the Quarantine Authority or the Health Officer or otherwise than on such conditions as the Quarantine Authority or the Health Officer may generally or specially impose.

Places for observation and isolation of persons.

Power of Health Officer to order isolation or observation or surveillance.

38. (1) Without prejudice to any other powers conferred by these Regulations, any person, within 14 days after his arrival in the Colony, who, in the opinion of the Health Officer—

(a) is suffering from or suspected to be suffering from a specified infectious disease, shall be placed in isolation; or

(b) is suffering from an infectious disease, other than a specified infectious disease, shall be liable to be placed in isolation at the discretion of the Health Officer; or

(c) has been exposed to the risk of infection by any specified infectious disease, may, at the discretion of the Health Officer, be placed under observation or surveillance during the remainder of the period of incubation; or

(d) has been exposed to risk of infection by any infectious disease other than a specified infectious disease, may, at the discretion of the Health Officer, be placed under surveillance as provided in Regulation 14.

(2) When any person arriving in the Colony has, in the opinion of the Health Officer, been exposed to infection from yellow fever within the previous 6 days, then, unless the Health Officer otherwise directs or such person is immune from the disease, the Health Officer shall order him to be kept under observation under *Aedes*-free conditions for 6 days or the remainder of the 6 days, from the last day on which he was exposed to the infection. An inoculated person who is not yet regarded as immune shall be kept under observation for a period not exceeding 6 days from the last day of possible exposure to infection.

Duties of persons under observation or surveillance.

39. (1) Any person placed under observation or surveillance shall—

(a) furnish all such information as may reasonably be required to the Health Officer or other authorised officer and shall comply with the orders and instructions of such Health Officer or authorised officer;

(b) undergo such medical inspections and examinations (including bacteriological examinations) as the Health Officer may require and submit himself and his personal effects or other articles to disinfection and other measures as the Health Officer may order.

(2) Any person placed under surveillance, who is so required by the Health Officer, shall deposit in the hands of the Health Officer a sum fixed by such Officer (not exceeding ten dollars) for which a receipt shall be given by the Health Officer. Such deposit shall be declared forfeited (without prejudice to any other liability) by the Quarantine Authority if the person under surveillance neglects to comply with the conditions of surveillance during the period thereof. At the end of such period the deposit, if not forfeited, shall be refunded by the Health Officer on delivery of the receipt given by him.

Any sum forfeited under this paragraph shall be forthwith paid into the Treasury for the use of the Colony.

(3) Any person in charge of a child or other person under disability shall be responsible for the compliance of such child or person with the requirements and provisions of this regulation.

40. Any person under observation or surveillance who shows symptoms of an infectious disease may, if the Health Officer so orders, be placed in isolation.

Isolation of persons under observation or surveillance. Surveillance replaced by observation.

41. In cases where surveillance is imposed under these Regulations it may be replaced by observation in any of the following circumstances—

(a) when it is impossible to exercise surveillance with adequate efficiency;

(b) if the risk of the introduction of infection into the Colony is deemed exceptionally serious;

(c) if the Health Officer is satisfied that the person who has been or should be subjected to surveillance has not complied or is not likely to comply with the conditions of surveillance.

42. (1) Any person under surveillance who, on account of illness, is unable to report for medical inspection shall immediately cause the Health Officer responsible for his surveillance to be informed of his illness and its nature and the Health Officer shall forthwith take steps to determine whether or not such person is suffering from an infectious disease.

Failure of person under surveillance to report for medical inspection.

(2) When any person under surveillance fails to report for medical inspection on the appointed day, the Health Officer responsible for his surveillance shall forthwith cause search to be made for him, and if his failure to report for medical inspection is due to illness, the Health Officer shall immediately visit him.

(3) Any person under surveillance who intends to proceed to an address other than that originally given by him shall immediately notify the Health Officer responsible for his surveillance of the new address.

43. The Health Officer responsible for the surveillance of a person who is about to proceed to some other place before the period of surveillance has ended shall inform the health authorities of the place to which such person is proceeding of his impending arrival and address there, and of the period of surveillance still uncompleted, and shall also instruct the person under surveillance as to whom he shall report for medical inspection when he arrives at such other place.

Change of place during surveillance.

44. As soon as any person placed under observation has undergone the observation necessary in his case, he shall be released from observation by the Health Officer.

Release from observation.

45. Any person other than a person acting in the execution of these Regulations who contravenes or fails to comply with regulation 37, or any condition imposed thereunder, or with any of the provisions of regulations 39 or 42, shall be guilty of an offence against these Regulations.

Offences.

46. Any person who, contrary to these Regulations, leaves any place in use for observation or isolation purposes may, without prejudice to any other liability, be apprehended by a Health Officer or an authorised officer or a member of any police force constituted by law in the Colony and taken back to such place.

Persons improperly leaving places approved for observation or isolation.

## PART IX.

## DUTIES OF QUARANTINE AUTHORITY.

Quarantine Authority to keep list of infected areas and to supply Visiting Officers with copies.

Lists of ports equipped to deal with ships in certain cases.

Information required by Convention and Agreements.

47. It shall be the duty of the Quarantine Authority to cause to be compiled and kept up to date a list of infected areas, including ports and seabords which serve infected areas, and to cause all Visiting Officers to be supplied with copies of the list and of all amendments thereto.

48. The Quarantine Authority shall prepare lists of ports of the Colony which are equipped from a sanitary point of view to deal with ships arriving in the Colony in specified circumstances.

49. The Quarantine Authority shall be responsible for the collection and transmission, directly or through the appropriate channels, of all information required to be collected and transmitted under the Convention or under any Agreement to which the Government is a party relating to quarantine matters.

## PART X.

## CHARGES FOR SERVICES.

Charges for sanitary measures applied.

50. (1) Where the master of any ship is required by or in pursuance of these Regulations to carry out any measures with a view to reducing the danger or preventing the spread of infection, the Quarantine Authority may, at the request of the master, and, if thought fit, at his cost, cause any such requirement to be complied with instead of enforcing the requirement against the master. When the Quarantine Authority causes any such requirement to be complied with at the cost of the master, the Quarantine Authority may require the amount of the charge for the work or a part thereof to be paid to or deposited with the Quarantine Authority before the work is undertaken.

(2) The amount of the charge for any work so to be undertaken by the Quarantine Authority shall be such reasonable sum as, to the exclusion of any charge or claim in respect of profit, represents the actual or estimated cost to be incurred by the Quarantine Authority in undertaking the work, so, however, that it shall not exceed the sum of one hundred dollars unless notice of the proposed charge has been given to the master before the work is undertaken.

(3) All such charges may be recovered against the master, shipowner or his agent.

Charges.

51. The charges to be made in respect of persons undergoing quarantine, isolation or observation, and the incidence of such charges, shall be such as are provided for in rules made under the Ordinance: Provided that no charge shall be made for any child under three years of age, and for any child over three years of age and under ten years of age half the prescribed charges shall be payable and shall be payable by and recoverable from the person in charge of the child.

Further provisions as to expenses and charges.

52. (1) All expenses and charges referred to in these Regulations shall be payable to the Quarantine Authority.

(2) Where any expenses or charges are payable by the master of a ship, the Comptroller of Customs and Excise and the Harbour Master may refuse to clear the ship until all liability in respect of the expenses or charges has been discharged.

## PART XI.

## MISCELLANEOUS.

53. (1) Subject to the provisions of these Regulations, the Quarantine Authority, the Health Officer and any authorised officer may give such orders and instructions and impose such conditions and take such action as they may deem desirable for the purposes of carrying these Regulations into effect.

General duty to comply with orders instructions and conditions.

(2) Every person to whom these Regulations apply shall comply with all such orders, instructions and conditions, and shall furnish all such information as the Quarantine Authority, Health Officer or authorised officer may reasonably require (including information as to his name, destination and address) and every person who has for the time being the custody or charge of a child or other person who is under disability shall comply with any orders, instructions or conditions so given, made or imposed and shall furnish all such information as aforesaid in respect of such child or other person.

54. (1) Whenever the master, the ship-owner or his agent so demands, the Health Officer shall furnish him with a free certificate stating the sanitary measures which have been applied to the ship and specifying the reason why they have been applied.

Certificates as to sanitary measures taken.

(2) Passengers who have been subjected to sanitary measures shall be entitled to a free certificate from the Health Officer indicating the date of their arrival and the measures to which they and their baggage have been subjected.

55. (1) The Governor in Council may from time to time by Order prohibit the importation into the Colony of any flea-bearing animal from any place outside the Colony in which he has reason to believe that there is any case of plague or in which plague is endemic.

G.N. 211-1950.

(2) Any such prohibited animal arriving at any port in the Colony may be seized by a quarantine guard and destroyed in such manner as the Quarantine Authority shall direct.\*

\* G.N. 237—1950. By Order dated 22nd August, 1950, no swine, dog or feline animal shall be imported into the Colony from Venezuela.

See G.N. 237

See G.N. 211

## SCHEDULE A.

(Reg. 4.)

## Declaration of Health.

(To be rendered by the masters of ships arriving from ports outside the Colony.)

*Before answering questions please read instructions overleaf.*

Port of	Date	
Name of Vessel	From	To
Nationality	Master's name	
Net Registered Tonnage		
Deratisation or	Certificate	Dated
Deratisation		
Exemption	Issued at	No. of.
No. of		
Passengers	Deck	Crew
List of ports of call from commencement of voyage with dates of departure		

## HEALTH QUESTIONS.

*Answer  
Yes or No.*

1. Has there been on board during the voyage\* any case or suspected case of plague, cholera, yellow fever, typhus fever or smallpox? Insert particulars in the Schedule hereto.

2. Has plague occurred or been suspected amongst the rats or mice on board during the voyage,\* or has there been an unusual mortality amongst them?

3. Has any person died on board during the voyage\* otherwise than as a result of accident? Insert particulars in Schedule hereto.

4. Is there on board or has there been during the voyage\* any case of illness which you suspect to be of an infectious nature? Insert particulars in Schedule hereto.

5. Is there any sick person on board now? Insert particulars in Schedule hereto.

*Note.*—In the absence of a surgeon, the master should regard the following symptoms as ground for suspecting the existence of infectious disease; fever accompanied by prostration or persisting for several days, or attended with glandular swellings, or any acute skin rash or eruption with or without fever; severe diarrhoea or diarrhoea with symptoms of collapse; jaundice accompanied by fever.

6. Are you aware of any other condition on board which may lead to infection or the spread of infectious disease?

I hereby declare that the particulars and answers to the questions given in this Declaration of Health (including the Schedule) are true and correct to the best of my knowledge and belief.

(Sgd.)

*Master.*

Date

Countersigned

*Ship's Surgeon.*

\* If more than six weeks have elapsed since the voyage began, it will suffice to give particulars for the last six weeks.

## SCHEDULE TO THE DECLARATION.

Particulars of every case of illness or death occurring on board.

Name	Class of Rating	Age	Sex	Race	Port of Embarkation	Date of Embarkation	Nature of Illness	Date of its onset	Results of Illness *	Disposal of Case †

\* State whether recovered; still ill; died.

† State whether still on board; landed at (give name of port); buried at sea.

## INSTRUCTIONS.

The master of a ship coming from a port outside the Colony must ascertain the state of health of all persons on board, and fill in and sign the Declaration of Health in the foregoing pages.

The master should send an International Quarantine Message either direct to the Visiting Officer or through the agent. The message may be in "clear" or in "code" and must be sent within the time specified in the Code.

The message must contain such of the items as are appropriate of the Standard Quarantine Messages (included in the Medical Section of the 1931 Intercolonial Code of Signals (pages 229 to 232 British edition)).

If the ship is not fitted with wireless, the appropriate signal must be hoisted on arrival.

The master should take all steps necessary to ensure that no persons other than a pilot and his leadsman shall board or leave the vessel without the permission of the Health Officer until pratique has been granted

## SCHEDULE B.

(Reg. 5.)

## Wireless Messages\*—Item of Information.

## ITEM I.

The following is an International Quarantine Message from vessel indicated of port indicated which expects to arrive at time indicated on date indicated.

## ITEM II.

My port of departure (first port of loading) and my last port of call were as indicated by the immediately following groups.

## ITEM III.

No case of infectious disease, or of sickness suspected to be of an infectious nature, has occurred on board during the last 15 days.

Number indicated cases of infectious disease(s) indicated have occurred during the last 15 days.

\* For notes on the sending of a Standard Quarantine Message see page 229 of the British edition of the 1931 International Code of Signals.

## ITEM IV.

I have no other case of sickness on board.  
I have number indicated other cases of sickness on board.

## ITEM V.

No deaths from sickness infectious or otherwise have occurred on board during the voyage.  
Number indicated deaths from sickness infectious or otherwise have occurred on board during the voyage.

## ITEM VI.

I have a ship's surgeon on board.  
I have no ship's surgeon on board.

## ITEM VII.

I do not wish to disembark any sick.  
I wish to disembark number indicated sick, suffering from disease (s) indicated.

## ITEM VIII.

My crew consists of number indicated, and I have no passengers on board.  
My crew consists of number indicated, and I have number indicated passengers.

## ITEM IX.

I do not propose to disembark any passengers.  
I propose to disembark number indicated passengers of class indicated.

**SCHEDULE C.***(Reg. 6.)***Use of Flags and Signals.**

Ships must show one of the following signals when coming within the limits of a port and until free pratique is granted.

*By day* (*i.e.*, between sunrise and sunset)—

(i) "Q" signifying "my ship is healthy and I request free pratique."

(ii) "Q" flag over first substitute (QQ) signifying "my ship is suspect, that is to say, I have had a case or cases of infectious disease more than five days ago or there has been unusual mortality among rats on board."

(iii) "Q" flag over "L" flag (QL) signifying "my ship is infected, that is to say, I have had a case or cases of infectious disease less than five days ago."

The day signal shall be shown at the masthead or where it can best be seen.

*By night*: Red light over white light, signifying "I have not received free pratique."

The lights should be not more than six feet apart and in a vertical line one over the other.

The night signal shall be shown at the peak or other conspicuous place where it can best be seen.

**SCHEDULE D.**

(Reg. 18.)

**Bill of Health.**

(This document is the property of the ship and is not to be retained by the port authorities.)

I hereby certify that the [name of ship], commanded by [name of Master], entered this port on the [date], and was admitted to free pratique/on arrival/ after subjection to the following measures

I further certify that at the time of granting this Bill of Health the port and its vicinity are free from plague (human and rodent), cholera, yellow fever, typhus and smallpox, except as follows:—

Port of *Signed*  
Date *Title of Officer*

Note : The following numbers of cases of other infectious diseases were notified during the week ending-

<i>Name of Disease.</i>	<i>Number of Cases.</i>
-------------------------	-------------------------

**SCHEDULE E.**

(Regs. 2; 27; 28 and 29.)

**Deratisation Certificate.\*****Deratisation Exemption Certificate.\***

Given under Article 28 of the International Sanitary Convention of Paris, 1926.

(NOT TO BE TAKEN AWAY BY PORT AUTHORITIES.)

Date *Port of*

This certificate records the inspection and exemption\*/deratisation\* at this port on the above date, of the S.S. of net tons, from. In accordance with the Quarantine Laws and Regulations of the Colony of

At the time the holds were empty\*/laden with\* tons of cargo.\*

[\*Strike out the unnecessary indications.]

OBSERVATIONS: (In case of exemption, state here the measures taken for maintaining the vessel in such a condition that the rat population would be reduced to a minimum.)

*Seal, Name, Qualification and Signature of the Health Officer.*

## THE APPENDIX.

(See definition of Convention Reg. 2.)

Extracts from the International Sanitary Convention signed at  
Paris on the 21st of June, 1926.

Article 18.

It rests with the authority of the country of destination to decide in what manner and at what place disinfection shall be carried out and what methods shall be adopted to secure the destruction of rats or insects (fleas, lice, mosquitoes, etc.). These operations shall be performed in such a manner as to injure articles as little as possible. Clothes and other articles of small value, including rags not carried as merchandise in bulk, may be destroyed by fire.

It is the duty of each State to settle questions relative to the payment of compensation for any damage caused by disinfection, deratisation and disinsectisation, or by the destruction of the articles referred to above.

If, on account of these measures, charges are levied by the sanitary authority, either directly or indirectly through a company or an individual, the rates of these charges shall be in accordance with a tariff published in advance and so drawn up that the State or the sanitary authority may not, on the whole, derive any profit from its application.

## SECTION IV.

## MEASURES AT PORTS AND MARINE FRONTIERS.

## (A) Plague.

Article 24.

*Infected ships.* A ship shall be regarded as *infected*—

- (1) If it has a case of human plague on board;
- (2) Or if a case of human plague broke out more than six days after embarkation;
- (3) Or if plague infected rats are found on board.

*Suspected Ship.* A ship shall be regarded as "suspected"—

- (1) If a case of human plague broke out on board in the first six days after embarkation;
- (2) Or if investigations regarding rats have shown the existence of an unusual mortality without determining the cause thereof.

The ship shall continue to be regarded as suspected until it has been subjected to the measures prescribed by this Convention at a suitably equipped port.

*Healthy Ship.*—A ship shall be regarded as "healthy" notwithstanding its having come from an infected port, if there has been no human or rat plague on board either at the time of departure, or during the voyage, or on arrival, and the investigations regarding rats have not shown the existence of an unusual mortality.

## Article 25.

Plague-infected ships shall undergo the following measures:—

- (1) Medical inspection;
- (2) The sick shall immediately be disembarked and isolated;
- (3) All persons who have been in contact with the sick and those whom the port sanitary authority have reason to consider suspect shall be disembarked if possible. They may be subjected to observation or surveillance,\* or to observation followed by surveillance, provided that the total duration of these measures does not exceed six days from the time of arrival of the ship. It rests with the sanitary authority of the port after taking into consideration the date of the last case, the condition of the ship and the local possibilities, to apply that one of these measures which seems to them preferable. During the same period the crew may be prevented from leaving the ship except on duty notified to the sanitary authority;
- (4) Bedding which has been used, soiled linen, wearing apparel and other articles which, in the opinion of the sanitary authority, are infected shall be disinfected and, if necessary, disinfected;
- (5) The parts of the ship which have been occupied by persons suffering from plague or which, in the opinion of the sanitary authority, are infected shall be disinfected and, if necessary, disinfected;
- (6) The sanitary authority may require deratisation before the discharge of the cargo, if they are of the opinion, having regard to the nature of the cargo and the way in which it is loaded, that it is possible to effect a total destruction of rats before discharge. In this case, the ship may not be subjected to a new deratisation after discharge. In other cases the complete destruction of the rodents shall be effected on board when the holds are empty. In the case of ships in ballast, this process shall be carried out as soon as possible before taking cargo.

Deratisation shall be carried out so as to avoid, as far as possible, damage to the ship and cargo (if any). The operation must not last longer than twenty-four hours. Any charges made in respect of these operations of deratisation and any question of compensation for damage shall be determined in accordance with the provisions of Article 18.

If a ship is to discharge a part of its cargo only, and if the port authorities consider that it is impossible to carry out complete deratisation, the said ship may remain in the port for the time required to discharge that part of its cargo, provided that all precautions, including isolation, are taken to the satisfaction of the sanitary authority to prevent rats from passing from the ship to the shore, either during unloading or otherwise.

The discharge of cargo shall be carried out under the control of the sanitary authority, who shall take all measures necessary to prevent the staff employed on this duty from becoming infected. This staff shall be

\* Persons under observation or surveillance shall give facilities for all clinical or bacteriological investigations which are considered necessary by the sanitary authority.

subjected to observation or to surveillance for a period not exceeding six days from the time when they have ceased to work at the unloading of the ship.

*Article 26.*

*Plague-suspected ships* shall undergo the measures specified in (1), (4), (5) and (6) of Article 25.

In addition, the crew and passengers may be subjected to surveillance, which shall not exceed six days reckoned from the date of arrival of the ship. The crew may be prevented during the same period from leaving the ship except on duty notified to the Sanitary Authority.

*Article 27.*

*Healthy Ships.*—Ships free from plague shall be given free pratique immediately, with the reservation that the sanitary authority of the port of arrival may prescribe the following measures with regard to them:—

(1) Medical inspection to determine whether the ship comes within the definition of a healthy ship;

(2) Destruction of rats on board under the conditions specified in (6) of Article 25, in exceptional cases and for well-founded reasons, which shall be communicated in writing to the captain of the ship;

(3) The crew and passengers may be subjected to surveillance during a period which shall not exceed six days reckoned from the date on which the ship left the infected port. The crew may be prevented during the same period from leaving the ship except on duty notified to the Sanitary Authority.

*Article 28.*

All ships, except those employed in national coastal service, shall be periodically deratised, or be permanently so maintained that any rat population is kept down to the minimum. In the first case they shall receive *Deratisation Certificates*, and in the second *Deratisation Exemption Certificates*.

Governments shall make known through the Office International d'Hygiene Publique those of their ports possessing the equipment and personnel necessary for the deratisation of ships.

A *Deratisation Certificate* or a *Deratisation Exemption Certificate* shall be issued only by the sanitary authorities of ports specified above. Every such certificate shall be valid for six months, but this period may be extended by one month in the case of a ship proceeding to its home port.

If no valid certificate is produced, the sanitary authority at the ports mentioned in the second paragraph of this Article may after inquiry and inspection:—

(a) Themselves carry out deratisation of the vessel, or cause such operations to be carried out under their direction and control. On the completion of these operations to their satisfaction they shall issue a dated *Deratisation Certificate*. They shall decide in each case the technique which should be employed to secure the practical extermination of rats on board, but details of the deratising process

applied and of the number of rats destroyed shall be entered on the certificate. Destruction of rats shall be carried out so as to avoid as far as possible damage to the ship and cargo (if any). The operation must not last longer than twenty-four hours. In the case of ships in ballast the process shall be carried out before taking cargo. Any charges made in respect of these operations of deratisation, and any question of compensation for damage, shall be determined in accordance with the provisions of Article 18.

(b) Issue a dated *Deratisation Exemption Certificate* if they are satisfied that the ship is maintained in such a condition that the rat population is reduced to a minimum. The reasons justifying the issue of such a certificate shall be set out in the certificate.

Deratisation and deratisation exemption certificates shall be drawn up as far as possible in a uniform manner. Model certificates shall be prepared by the Office International d'Hygiene Publique. *UNRKA*

*Article 29.*

*Infected Ship.*—A ship shall be regarded as *infected* if there is a case of cholera on board, or if there has been a case of cholera during the five days previous to the arrival of the ship in port.

*Suspected Ship.*—A ship shall be regarded as *suspected* if there has been a case of cholera at the time of departure or during the voyage, but no fresh case in the five days previous to arrival. The ship shall continue to be regarded as suspected until it has been subjected to the measures prescribed by this Convention.

*Healthy Ship.*—A ship shall be considered "*healthy*" if, although arriving from an infected port or having on board persons proceeding from an infected local area, there has been no case of cholera either at the time of departure, during the voyage, or on arrival.

Cases presenting the clinical symptoms of cholera, in which no cholera vibrios have been found or in which vibrios not strictly conforming to the character of cholera vibrios have been found shall be subject to all measures required in the case of cholera.

Germ carriers discovered on the arrival of a ship shall be submitted after disembarkation to all the obligations which may be imposed in such a case by the laws of the country of arrival on its own nationals.

*Article 30.*

*Cholera Infected Ships.*—In the case of cholera, "*infected*" ships shall undergo the following measures:—

- (1) Medical inspection;
- (2) The sick shall be immediately disembarked and isolated;
- (3) The crew and passengers may be disembarked and either be kept under observation or subjected to surveillance during a period not exceeding five days reckoned from the date of arrival of the ship;

However, persons who can show that they have been protected against cholera by vaccination effected within the period of the

previous six months, excluding the last six days thereof, may be subjected to surveillance, but not to observation;

(4) Bedding which has been used, soiled linen, wearing apparel and other articles, including foodstuffs, which, in the opinion of the sanitary authority of the port, have been recently contaminated shall be disinfected;

(5) The parts of the ship that have been occupied by persons infected with cholera or that the sanitary authority regard as infected shall be disinfected;

(6) Unloading shall be carried out under the supervision of the sanitary authority, which shall take all measures necessary to prevent the infection of the staff engaged in unloading. This staff shall be subjected to observation or to surveillance which may not exceed five days from the time when they ceased unloading;

(7) When the drinking water stored on board is suspected it shall be emptied out after disinfection and replaced, after disinfection of the tanks, by a supply of wholesome drinking water;

(8) The sanitary authority may prohibit the emptying of water ballast in port without previous disinfection if it has been taken in at an infected port;

(9) The emptying or discharge of human dejecta, as well as the waste waters of the ship, into the waters of the port may be forbidden, unless they have been previously disinfected.

#### *Article 31.*

*Cholera Suspected Ships.*—In the case of cholera, “*suspected*” ships shall undergo the measures prescribed in (1), (4), (5), (7), (8) and (9) of Article 30.

The crew and passengers may be subjected to surveillance during a period which shall not exceed five days reckoned from the date of arrival of the ship. It is recommended that the crew be prevented during the same period from leaving the ship except on duty notified to the sanitary authority.

#### *Article 32.*

*Clinical Cholera.*—If the ship has been declared infected or suspected on account only of a case on board presenting the clinical features of cholera, and two bacteriological examinations, made with an interval of not less than 24 hours between them, have not revealed the presence of cholera or other suspicious vibrios; the ship shall be considered healthy.

#### *Article 33.*

*Healthy Ships.*—In the case of cholera, “*healthy*” ships shall be given *pratique* immediately.

The sanitary authority of the port of arrival may prescribe as regards these ships the measures specified in (1), (7), (8) and (9) of Article 30.

The crew and passengers may be subjected to surveillance during a period which shall not exceed five days reckoned from the date of arrival of the ship. The crew may be prevented during the same period from leaving the ship except on duty notified to the sanitary authority.

## Article 34.

Since anti-cholera vaccination is a method of proved efficacy in staying cholera epidemics, and consequently in lessening the likelihood of the spread of the disease, sanitary administrations are recommended to employ in the largest measure possible and as often as practicable, specific vaccination in cholera foyers and to grant certain advantages as regards restrictive measures to persons who have elected to be vaccinated.

## (C) Yellow Fever.

## Article 35.

*Infected Ship.*—A ship shall be regarded as *infected* if there is a case of yellow fever on board, or if there was one at the time of departure or during the voyage.

*Suspected Ship.*—A ship shall be regarded as *suspected* if, having had no case of yellow fever, it arrives after a voyage of less than six days from an infected port or from a port in close relation with an endemic centre of yellow fever, or it arrives after a voyage of more than six days and there is reason to believe that it may transport adult *stegomyia* (*aedes egypti*) emanating from the said port.

*Healthy Ship.*—A ship shall be regarded as *healthy*, notwithstanding its having come from an infected port, if on arriving after a voyage of more than six days it has had no case of yellow fever on board and either there is no reason to believe that it transports adult *stegomyia* or it is proved to the satisfaction of the authority of the port of arrival—

(a) That the ship, during its stay in the port of departure, was moored at a distance of at least 200 metres from the inhabited shore and at such a distance from harbour vessels (pontons) as to make the access of *stegomyia* improbable;

(b) Or that the ship, at the time of departure, was effectively fumigated in order to destroy mosquitoes.

## Article 36.

*Yellow Fever Infected Ships.*—Ships infected with yellow fever shall undergo the following measures:—

(1) Medical inspection;

(2) The sick shall be disembarked, and those of them whose illness has not lasted more than five days shall be isolated in such a manner as to prevent infection of mosquitoes;

(3) The other persons who disembark shall be kept under observation or surveillance during a period which shall not exceed six days reckoned from the time of disembarkation;

(4) The ship shall be moored at least 200 metres from the inhabited shore and at such a distance from the harbour boats (pontons) as will render the access of *stegomyia* improbable;

(5) The destruction of mosquitoes in all phases of growth shall be carried out on board, as far as possible before discharge of cargo. If discharge is carried out before the destruction of mosquitoes,

the personnel employed shall be subjected to observation or to surveillance for a period not exceeding six days from the time when they ceased unloading.

*Article 37.*

*Yellow Fever Suspected Ships.*—Ships suspected of yellow fever may be subjected to the measures specified in (1), (3), (4) and (5) of Article 36.

Nevertheless, if the voyage has lasted less than six days and if the ship fulfils the conditions specified in paragraphs (a) or (b) of Article 35 relating to healthy ships, the ship shall be subjected only to the measures prescribed in Article 36, (1) and (3) and to fumigation.

When thirty days have been completed after the departure of the ship from the infected port, and no case has occurred during the voyage, the ship may be granted free pratique subject to preliminary fumigation should the sanitary authority consider this to be necessary.

*Article 38.*

*Healthy Ships.*—Healthy ships shall be granted free pratique after medical inspection.

*Article 39.*

The measures prescribed in Articles 36 and 37 concern only those regions in which *stegomyia* exist, and they shall be applied with due regard to the climatic conditions prevailing in such regions and to the *stegomyia* index.

In other regions they shall be applied to the extent considered necessary by the sanitary authority.

*Article 40.*

The masters of ships which have touched at ports infected with yellow fever are specially advised to cause a search to be made for mosquitoes and their larvae during the voyage and to secure their systematic destruction in all accessible parts of the ship, particularly in the store rooms, galleys, boiler rooms, water tanks and other places specially likely to harbour *stegomyia*.

**(D) Typhus.**

*Article 41.*

Ships which, during the voyage have had, or at the time of their arrival, have, a case of typhus on board, may be subjected to the following measures:—

- (1) Medical inspection;
- (2) The sick shall immediately be disembarked, isolated and deloused;
- (3) Other persons reasonably suspected to harbour lice, or to have been exposed to infection, shall also be deloused, and may be subjected to surveillance during a period which shall be specified, but which in any event should never exceed twelve days, reckoned from the date of delousing;

(4) Bedding which has been used, linen, wearing apparel and other articles which the sanitary authority consider to be infected shall be disinfected;

(5) The parts of the ship which have been occupied by persons ill with typhus and which the sanitary authority regard as infected shall be disinfected.

The ship shall immediately be given free pratique.

It rests with each Government to take, after disembarkation, the measures which they consider appropriate to ensure the surveillance of persons who arrive on a ship which has had no case of typhus on board, but who have left a local area where typhus is epidemic within the previous twelve days.

### (E) Smallpox.

#### Article 42.

Ships which have had, or have a case of smallpox on board either during the voyage or at the time of arrival may be subjected to the following measures—

(1) Medical inspection;

(2) The sick shall immediately be disembarked and isolated;

(3) Other persons reasonably suspected to have been exposed to infection on board, and who, in the opinion of the sanitary authority are not sufficiently protected by recent vaccination, or by a previous attack of smallpox may be subjected to vaccination or to surveillance or to vaccination followed by surveillance, the period of surveillance being specified according to the circumstances, but in any event not exceeding fourteen days, reckoned from the date of arrival of the ship;

(4) Bedding which has been used, soiled linen, wearing apparel and other articles which the sanitary authority consider to have been recently infected shall be disinfected;

(5) Only the parts of the ship which have been occupied by persons ill with smallpox and which the sanitary authority regard as infected shall be disinfected.

The ship shall immediately be given free pratique.

It rests with each Government to take, after disembarkation, the measures which they consider appropriate to ensure the surveillance of persons who are not protected by vaccination, and who arrive on a ship which has had no case of smallpox on board, but who have left a local area, where smallpox is epidemic within the previous fourteen days.

In the purpose of the article "recent vaccination" shall be taken as meaning evidence of successful vaccination not more than three years or less than 14 day previous, or evidence of an immune reaction. Vaccination of such persons may be performed.

## THE SECOND SCHEDULE.

(Section 4.)

## PART I.

## INTRODUCTORY.

Short title.

1. These Regulations may be cited as the Quarantine (Air) Regulations.

Interpre-  
tation.

2. In these Regulations, unless the context otherwise requires—

“aedes” includes any potential insect vector of yellow fever;

“aerodrome,” “aircraft” and “commander” have the meanings assigned to them in section 2 of the Ordinance;

“aircraft coming from an infected area” in relation to an aircraft arriving at an aerodrome or other place means an aircraft—

(a) which left a plague, cholera, typhus or smallpox infected area within the period of incubation of those diseases;

(b) which left a yellow fever infected or endemic area, or a locality in close relation with any such area, within a period of six days immediately preceding its arrival, or after a longer period if there is reason to believe that the aircraft may be carrying adult mosquitoes emanating from the said area or locality;

“anti-amaryl aerodrome” means—

(a) an aerodrome in the Colony declared to be an anti-amaryl aerodrome under regulation 4; and

(b) an aerodrome outside the Colony which is recognised by the Quarantine Authority as complying with Article 38 of the Convention;

“authorised aerodrome” means an aerodrome for the time being approved as a customs aerodrome for the purpose of the laws relating to customs;

“authorised officer” means a person authorised to act as such in the case in question by virtue of an order made under regulation 3;

“the Convention” means the International Sanitary Convention for Aerial Navigation signed at the Hague on the 12th of April, 1933, of which relevant extracts are set forth in the Appendix hereto;

“crew” includes any person having duties on board an aircraft in connection with the flying or the safety of the flight of the aircraft, or employed on board in any way in the service of the aircraft, the passengers, or the cargo;

“day” means an interval of twenty-four hours;

“endemic area” means an area in which the Health Officer has reason to believe that yellow fever exists, or has existed during the preceding fifteen years, in a form recognisable clinically, biologically or pathologically;

“foreign” means situate outside the Colony;

“ Health Officer ” means the appropriate officer appointed as such under section 3 of the Ordinance, and includes a medical practitioner acting under the direction of the Quarantine Authority or a Health Officer for the purpose of executing these Regulations or any of them;

“ immune,” in relation to yellow fever, means that the person in question produces a certificate to the satisfaction of the Health Officer issued by a medical officer or institution recognised by the Quarantine Authority—

(a) to the effect that the possessor of the certificate has been inoculated with a vaccine of certified proven potency against yellow fever, not more than four years and not less than ten days previously; or

(b) to the effect that the blood of the possessor of such certificate has been examined and found to be immune to yellow fever, and stating to the best of the information and belief of a medical officer or institution issuing the same whether such immunity has been caused artificially or naturally: Provided that if such certificate relates to immunity caused artificially, it shall only be valid for a period of twelve months from the date of the examination to which it relates;

“ infected ” in relation to an aircraft arriving at an aerodrome or other place, means that the aircraft has on board a case or suspected case of plague, yellow fever, typhus or smallpox, or a case presenting clinical signs of cholera, or which has had such a case or suspected case on board and has not since been subjected to the measures prescribed by these Regulations;

“ infected area ” means a local area in which the Health Officer has reason to believe that—

(a) a first case of plague recognised as non-imported has occurred or in which rodent plague exists or has existed during the previous six months; or

(b) cholera has formed a foyer, that is to say that the occurrence of new cases beyond the immediate surroundings of the first case proves that the spread of the disease has not been limited to the place where it began; or

(c) a first case of yellow fever recognised as non-imported has occurred; or

(d) typhus or smallpox exists in epidemic form, that is to say that the occurrence of new cases indicates that the spread of the disease is not under control;

“ infectious disease ” means any epidemic or acute infectious disease, and includes open pulmonary tuberculosis but does not include venereal disease;

“ isolation ” means the removal to a hospital or other suitable place approved by the Health Officer, of a person suffering, or suspected to be suffering, from an infectious disease, and his detention therein until, in the opinion of the Health Officer—

(a) he is free from infection, or

(b) if not so free, he may be discharged without undue danger to public health;

“local area” means a well defined area such as a province, district, island, town or quarter of a town, port or village, whatever may be its extent or population, and includes an aerodrome which is, or may be designated as, a local area for the purposes of the Convention;

“observation” means the detention under medical supervision of persons in such places and for such periods as may be directed by a Health Officer;

“passenger” means any person, other than a member of the crew, carried in an aircraft;

“period of incubation” for the purpose of these Regulations shall be deemed to be—

For plague	...	...	...	...	6 days.
For cholera	...	...	...	...	5 days.
For yellow fever	...	...	...	...	6 days.
For typhus	...	...	...	...	12 days.
For smallpox	...	...	...	...	14 days.

“Quarantine Authority” means the Quarantine Authority established under the powers conferred by section 3 of the Ordinance;

“sanitary aerodrome” means an aerodrome declared under regulation 4 to be a sanitary aerodrome;

“specified infectious disease” means plague, cholera, yellow fever, typhus and smallpox;

“surveillance” means that persons are not detained, that they may move about freely, but that they are required to report for medical examination at such intervals and during such period and to such persons as may be directed by a Health Officer;

“the Ordinance” means the Quarantine Ordinance.

#### Officers.

3. (1) The Quarantine Authority may by order authorise any officer or person or any member of a class of officers or persons to act as an authorised officer for the purposes of these Regulations or for some specified purpose of these Regulations.

(2) Every such officer or person shall exercise his powers and perform his duties subject to the general or special direction and control of the Quarantine Authority and the Health Officer.

#### Approval of sanitary and anti-amaryl aerodromes.

4. (1) The Governor may, by order, declare any authorised aerodrome in the Colony to be a sanitary aerodrome for the purposes of these Regulations, where he is satisfied that there are available at the aerodrome—

(a) a Health Officer and adequate sanitary staff (whether or not in permanent attendance);

(b) a place for medical inspection;

(c) equipment for taking and despatching suspected material to a laboratory for examination if such examination cannot be made at the aerodrome;

(d) facilities for the isolation, transport and care of the sick, for the observation of contacts separately from the sick and for carrying out any other prophylactic measure in suitable premises within the aerodrome or in proximity to it;

(e) apparatus necessary for carrying out disinfection, disinsectisation and deratisation if required, as well as any other measures laid down in these Regulations;

(f) a sufficient supply of wholesome drinking water;

(g) a proper and safe system for the removal and disposal of excreta, refuse and waste water;

(h) adequate protection from rats.

(2) The Governor may, by order, declare any sanitary aerodrome in the Colony to be an anti-amaryl aerodrome for the purposes of these Regulations, where he is satisfied that the aerodrome complies with the requirements of Article 38 of the Convention.

## PART II.

### MOVEMENTS OF AIRCRAFT.

5. (1) All aircraft on entering the Colony shall make their first landing at a prescribed aerodrome (as hereinafter defined) and all aircraft on leaving the Colony shall depart from a prescribed aerodrome. Use of aerodromes.

(2) If any of the provisions of this regulation are contravened as regards any aircraft, the commander thereof shall be guilty of an offence against these Regulations.

(3) For the purposes of this regulation the expression "prescribed aerodrome" means—

(a) a sanitary aerodrome; or

(b) an authorised aerodrome approved by order of the Quarantine Authority for use as a prescribed aerodrome either generally or in the particular case or class of case.

(4) Where the Health Officer is of opinion that the aerodrome at which an aircraft arrives is not suitably equipped to deal with such aircraft he may order the commander thereof to take it to an aerodrome which is suitably equipped.

6. (1) In the event of an aircraft on entering the Colony being compelled to land elsewhere than at an aerodrome at which it is permitted to land under these Regulations, the following provisions shall have effect— Aircraft landing otherwise than at permitted aerodromes.

(a) as soon as practicable after the landing, the commander shall cause to be reported to a Health Officer, authorised officer or Government Medical Officer the circumstances of the flight and the emergency landing;

(b) without the permission of a Health Officer, authorised officer or Government Medical Officer, no person shall remove any merchandise or baggage from the aircraft, and no passenger or member of the crew shall depart from the landing place, unless such removal or departure is necessary for the purposes of safety or of the

preservation of life or property, and the commander shall take all steps in his power to secure compliance with this provision;

(c) a Health Officer, authorised officer or Government Medical Officer may give all such orders and instructions to the crew and passengers, and may impose all such conditions upon them, as he may deem advisable having regard to the principles of these Regulations.

(2) Any person who contravenes or fails to comply with any of the provisions of paragraph (1) of this regulation shall be guilty of an offence against these Regulations.

### PART III.

#### GENERAL SANITARY PROVISIONS.

Duties of  
commander.

7. (1) The commander of every aircraft arriving in the Colony shall—

(a) as long as possible before arrival, inform the Health Officer or an authorised officer by wireless of any death, and of any case or suspected case of infectious disease, on board the aircraft;

(b) on arrival—

(i) answer all questions as to health conditions on board, which may be put to him by the Health Officer or an authorised officer, produce to either or both of those officers the journey log book of the aircraft if so required, and furnish either or both of them with all such information and assistance as may reasonably be required for the purposes of these Regulations; and

(ii) make and present to a Health Officer or an authorised officer a declaration of health in a form from time to time approved by the Quarantine Authority, in which shall be set out the places of call and any facts relevant to public health which have arisen in the aircraft in the course of the voyage and any health measures undergone by the aircraft, the crew and the passengers before departure and at places of call.

(2) The commander of an aircraft who contravenes or fails to comply with any of the provisions of this regulation shall be guilty of an offence against these Regulations.

Details of  
specified  
infectious  
diseases to  
be recorded.

8. When any specified infectious disease makes its appearance in any part of the Colony, the Health Officer or an authorised officer shall enter all necessary details in the journey log book or other convenient record of all aircraft leaving an aerodrome during a period of fifteen days from the date on which information of such specified infectious disease was received.

Duties of  
crew and  
passengers.

9. (1) Every member of the crew and passenger of an aircraft arriving in the Colony shall furnish all such information as may reasonably be required by the Health Officer or an authorised officer, including information as to his name, state of health and origin, and information as to places recently visited, his destination and his address there, and shall, if so required by the Health Officer or an authorised officer complete and

sign a certificate of origin and destination in a form from time to time approved by the Quarantine Authority.

(2) Any person who contravenes or fails to comply with any of the provisions of this regulation shall be guilty of an offence against these Regulations.

10. When an aircraft arrives in the Colony and it appears to an authorised officer from information given to him by the commander, crew or passengers or from the journey log-book or declaration of health that—

Detention of aircraft by an authorised officer.

(a) during the voyage there has been in the aircraft a death otherwise than by accident or a case of illness caused or suspected to be caused by an infectious disease; or

(b) that the aircraft is an infected aircraft or an aircraft coming from an infected area,

he shall order that the aircraft be detained and shall immediately report the matter to the Health Officer and to the person in charge of the aerodrome, and the Health Officer shall forthwith take such action as may be appropriate under these Regulations.

11. Without prejudice to any other provisions of these Regulations, the Health Officer may, in relation to any aircraft arriving at an aerodrome in the Colony—

Powers of Health Officer.

(a) medically inspect the crew and passengers;

(b) detain any such persons for medical examination;

(c) prohibit any such persons from leaving the aerodrome save upon such specified conditions as appear to the Health Officer to be reasonably necessary to prevent the spread of infection;

(d) order that the aircraft be detained (notifying such order to the person in charge of the aerodrome) to enable such action as may be appropriate under these Regulations to be taken: Provided that an aircraft shall not be detained longer than is necessary for the taking of such action;

(e) if the aircraft has arrived from an area from which it is liable to bring insect vectors of malaria or other diseases, order that the aircraft shall be disinfected.

12. If there is on board an aircraft arriving at an aerodrome in the Colony a case of infectious disease other than a specified infectious disease, duly so verified by the Health Officer, the sick person may be landed and, at the discretion of the Health Officer, isolated, and such other sanitary measures, as such officer may consider desirable shall be applied; the other passengers and crew shall have the right to continue the voyage after medical inspection and the application of the appropriate sanitary measures, such measures being so arranged that the aircraft is detained as short a time as possible.

Measures to be applied on the landing of sick persons.

13. The Quarantine Authority may by general or special order prohibit aircraft coming from an area outside the Colony from which they are liable to bring insect vectors of malaria or any other disease from landing

Disinsectation, prior to landing.

in the Colony unless they have been disinfected immediately before leaving that area or during the voyage, and if this provision is not complied with, the commander of the aircraft shall be guilty of an offence against these Regulations.

Discharge of  
matter from  
aircraft.

14. The discharge from aircraft of matter capable of producing an outbreak of infectious disease is prohibited, and any person who shall contravene this prohibition shall be guilty of an offence against these Regulations.

Observation  
and  
surveillance.

15. These Regulations shall have effect as though Part VIII of the Quarantine (Maritime) Regulations, and any regulations amending or replacing the same, were incorporated in these Regulations: Provided that—

(a) in the case of persons in transit who are liable to surveillance under these Regulations, the Health Officer may permit them to continue their voyage but shall take such steps as he may deem appropriate to notify the sanitary authorities of the place to which they are proceeding;

(b) in the case of persons in transit who are liable to observation in respect of specified infectious diseases other than yellow fever, the Health Officer may permit them to continue their voyage if he is satisfied that the sanitary authorities of the places to which they are proceeding do not object to this course.

General  
powers in  
relation to  
aircraft  
departing.

16. The Health Officer may, before the departure of an aircraft, medically inspect the passengers and crew and may prohibit the embarkation of any person with symptoms of any infectious disease. In the absence of the Health Officer, the person in charge of the aerodrome or any authorised officer shall have power to defer the departure of any person until he has been medically inspected.

#### PART IV.

##### SPECIAL SANITARY MEASURES IN THE CASE OF PLAGUE, CHOLERA, TYPHUS AND SMALLPOX.

Application  
of Part IV.

17. The provisions of this Part shall be without prejudice to any other provisions of these Regulations.

Infected  
aircraft and  
aircraft  
coming from  
infected  
areas.

18. If an infected aircraft or an aircraft coming from an infected area arrives at an aerodrome, the appropriate measures set out in the Schedule hereto in relation to specified infectious diseases other than yellow fever shall be carried out.

Aircraft  
departing  
from infected  
areas.

19. In the case of an aircraft departing from an infected area, in which there is infection by a specified infectious disease other than yellow fever, the appropriate measures set out below shall be carried out, that is to say—

(a) cleansing and disinfection to the satisfaction of the Health Officer of any parts of the aircraft which, in his opinion, require to be cleansed and disinfected;

(b) medical inspection of passengers and crew, and the prohibition

of embarkation or departure of any such person who shows symptoms of any specified infectious disease, as well as any such person in such close relation with the sick as to render him liable to transmit the infection of any such disease;

(c) inspection of the clothing, bedding (if any), and other personal effects of the passengers and crew and prohibition of the loading or carriage of any such clothing, bedding or personal effects which are not in a reasonable state of cleanliness;

(d) disinfection of clothing, bedding and personal effects as aforesaid at the discretion of the Health Officer;

(e) at the discretion of the Health Officer, disinsectisation of the passengers and crew and their clothing, bedding (if any) and other personal effects, and disinsectisation and deratisation of the aircraft;

(f) prohibition of the taking on board or carriage in the aircraft of any article which, in the opinion of the Health Officer, is capable of carrying infection, unless the Health Officer is satisfied that it has been efficiently disinfected.

#### PART V.

##### SPECIAL SANITARY MEASURES IN THE CASE OF YELLOW FEVER.

20. The provisions of this Part shall be without prejudice to any provisions of these Regulations.

Application  
of Part V.

21. Except with the general or special permission of the Quarantine Authority, no aircraft shall land in or depart from any yellow fever infected or endemic area in the Colony.

Prohibition  
of landing at  
or departing  
from certain  
areas.

22. (1) Except with the general or special permission of the Quarantine Authority, no aircraft coming from a yellow fever infected or endemic area outside the Colony shall enter the Colony.

Prohibition  
of aircraft  
entering the  
Colony from  
certain areas  
outside the  
Colony.

(2) When permission is given to any such aircraft as provided in paragraph (1) of this regulation, the aircraft shall use only such aerodromes in the Colony as may be specified by the Quarantine Authority.

23. On the arrival of an aircraft from a yellow fever infected area or from an aerodrome (not itself being a local area which is not an infected area) situated in or near a yellow fever infected area, the following measures shall be taken—

Measures on  
arrival of  
aircraft from  
territory in  
which yellow  
fever exists.

(a) disinsectisation of the aircraft prior to landing of passengers and cargo;

(b) medical inspection of passengers and crew;

(c) isolation under *Aedes*-free conditions of persons suspected to be suffering from yellow fever, or who are suffering from any febrile illness until the nature of the illness is determined;

(d) observation as provided in paragraph (2) of regulation 38 of the Quarantine (Maritime) Regulations, as incorporated in these Regulations by regulation 15 hereof;

(e) surveillance for six days from last day of possible exposure

to infection of persons who are not subjected to observation on arrival.

Measures on arrival of aircraft from an aerodrome situated in an endemic area.

24. (1) On the arrival of an aircraft from an aerodrome situated in an endemic area, the following measures shall be taken—

- (a) disinsectisation of the aircraft prior to landing of passengers and cargo;
- (b) medical inspection of passengers and crew;
- (c) isolation under *Aedes*-free conditions of persons suspected to be suffering from yellow fever;
- (d) surveillance, for six days from the last day of possible exposure to infection, of passengers and crew who are not immune.

(2) For the purposes of paragraph (1) of this regulation, the American mainland between the latitudes of 13° N. and 30° S. and the West Coast of Africa between the latitudes of 16° N. and 12° S. shall be deemed to be endemic areas; but between these latitudes such areas may be excluded by direction of the Quarantine Authority as are known to the Quarantine Authority to be areas in which yellow fever does not exist and has not existed during the past fifteen years in a form recognisable clinically, biologically or pathologically.

Aircraft in transit landing to take in supplies.

25. Aircraft from healthy areas which in transit to the Colony have called at an anti-amaryl aerodrome merely to take in supplies, shall be exempt from measures specified in regulations 23 and 24 of these Regulations other than disinsectisation on arrival in the Colony, provided the fact that the aircraft has called at an anti-amaryl aerodrome for the sole purpose of taking in supplies is entered in the journey log-book, declaration form or other record.

Measures on departure from certain areas of the Colony.

26. Before the departure of an aircraft from a yellow fever infected or endemic area of the Colony, the following measures shall be taken—

- (a) passenger and crew who are not immune shall undergo observation under *Aedes*-free conditions for six days immediately before departure;
- (b) all merchandise, baggage and other articles from the area and, at the discretion of the Health Officer, from other areas shall be disinsected before loading;
- (c) merchandise, baggage and other articles on board the plane shall be disinsected at the discretion of the Health Officer;
- (d) the aircraft shall be disinsected immediately before departure.

Restrictions as to certain aerodromes.

27. No person other than—

- (a) an immune person; or
- (b) a person arriving in an aircraft from a place outside the Colony; or
- (c) an intending passenger or member of the crew who, with the approval of the Health Officer, has undergone or is about to undergo observation in accordance with the provisions of regulation 26,

shall enter an aerodrome which is in a yellow fever infected or endemic area of the Colony.

28. Any person in transit by air who arrives at an aerodrome to which regulation 27 applies from a place outside the Colony shall, unless he is immune, be detained under *Aedes*-free conditions within the precincts of the aerodrome or elsewhere until his departure by air.

Persons in transit.

29. The commander of an aircraft which shall contravene regulation 21 or 22, any person who shall contravene regulation 27, and any person who shall leave a place of detention ordered under regulation 28, shall be guilty of offences against these Regulations.

Offences.

## PART VI.

### DUTIES OF QUARANTINE AUTHORITY.

30. It shall be the duty of the Quarantine Authority to take such practicable measures as may lawfully be taken to ensure that authorised aerodromes, and premises in the vicinity thereof, in the Colony are kept free from mosquitoes.

Duty to keep authorised aerodromes free from mosquitoes.

31. The Quarantine Authority shall be responsible for the collection and transmission, directly or through the appropriate channels, of all information required to be collected and transmitted under the Convention or under any Agreement to which the Government is a party relating to quarantine matters.

Information required by Convention and Agreements.

32. It shall be the duty of the Quarantine Authority to cause to be compiled and kept up to date a list of infected and endemic areas, both within and without the Colony, and to cause all Health Officers to be supplied with copies of the list as from time to time amended.

Lists of infected and endemic areas.

## PART VII.

### CHARGES FOR SERVICES.

33. (1) Where the commander of any aircraft is required by or in pursuance of these Regulations to carry out any measures with a view to reducing the danger of preventing the spread of infection, the Quarantine Authority may, at the request of the commander, and, if thought fit, at his cost, cause any such requirement to be complied with instead of enforcing the requirement against the commander. When the Quarantine Authority causes any such requirement to be complied with at the cost of the commander, the Quarantine Authority may require the amount of the charge for the work or, a part thereof to be paid to or deposited with the Quarantine Authority before the work is undertaken.

Charges for sanitary measures applied.

(2) The amount of the charge for any work so to be undertaken by the Quarantine Authority shall be such reasonable sum as, to the exclusion of any charge or claim in respect of profit, represents the actual or estimated cost to be incurred by the Quarantine Authority in undertaking the work, so, however, that it shall not exceed the sum of one hundred dollars unless notice of the proposed charge has been given to the commander before the work is undertaken.

(3) All such charges may be recovered against the commander, aircraft owner or his agent.

Charges.

Scale of charges.

34. The charges to be made in respect of persons undergoing quarantine, isolation or observation, and the incidence of such charges, shall be such as are provided for in rules made under the Ordinance: Provided that no charge shall be made for any child under three years of age, and for any child over three years of age and under ten years of age half the prescribed charges shall be payable and shall be payable by and recovered from the person in charge of the child.

Further provisions as to expenses and charges.

35. (1) All expenses and charges referred to in these Regulations shall be payable to the Quarantine Authority.

(2) Where any expenses or charges are payable by the commander of an aircraft, to the Quarantine Authority in relation to an aircraft at an aerodrome, the Comptroller of Customs and Excise and the person in charge of the aerodrome may refuse to clear the aircraft until all liability in respect of the expenses or charges has been discharged.

#### PART VIII.

##### MISCELLANEOUS.

Saving as to mails. The Schedule.

36. Save as provided in regulation 39 (2), or in Parts A and B of the Schedule hereto, nothing in these Regulations shall render liable to detention, disinfection or destruction any article forming part of any mail conveyed under the authority of the Postmaster General, or of the postal administration of any other Government, or shall prejudicially affect the receipt on board and delivery in due course of any such mail in accordance with the provisions of the Post Office Ordinance.

Health Officers to take account of previous measures.

37. In applying measures to an aircraft coming from an infected area, the Health Officers of every aerodrome shall take into account all measures which have already been applied to the aircraft in any other aerodrome in the Colony or elsewhere and which are duly noted in the journey log-book, declaration form or other record.

Aircraft in certain cases not to be subjected to measures a second time.

38. Aircraft coming from an infected area, which have, in the opinion of the Health Officer, already been subjected to satisfactory measures either in the Colony or elsewhere, shall not be subjected to such measures, other than disinsectisation, a second time on arrival at another aerodrome if no subsequent incident has occurred which calls for their re-application and if the aircraft has not called at an aerodrome which is, or is within, an infected area except to take in fuel.

Saving in the case of aircraft continuing voyage.

39. (1) If the commander of an aircraft which has landed in the Colony at an aerodrome which is not its final destination does not desire to submit to any measures specified in these Regulations which may be applicable, and notifies the Health Officer accordingly, he shall be at liberty to continue the voyage without such submission: Provided that if the aircraft has on board a case of yellow fever, or comes from a yellow fever infected area, the Health Officer may require that it shall be subjected to such of the measures specified by these Regulations in relation to that disease as he considers necessary.

(2) Where the commander notifies the Health Officer as aforesaid, he shall not land goods or disembark passengers except with the permission

of the Health Officer and subject to such conditions as the Health Officer may impose in conformity with the provisions of these Regulations.

40. (1) Subject to the provisions of these Regulations, the Quarantine Authority, the Health Officer or any authorised officer may give such orders and instructions and impose such conditions and take such action as they may deem desirable for the purpose of carrying these Regulations into effect.

General duty to comply with orders, instructions and conditions.

(2) Every person to whom these Regulations apply shall comply with all such orders, instructions and conditions, and shall furnish all such information as the Quarantine Authority, Health Officer or authorised officer may reasonably require (including information as to his name, destination and address) and every person who has for the time being the custody or charge of a child or other person who is under disability shall comply with any orders, instructions or conditions so given, made or imposed, and shall furnish all such information as aforesaid in respect of such child or other person.

41. (1) The Health Officer applying measures shall, whenever requested, furnish free of charge to the commander of the aircraft or any other interested person, a certificate specifying the nature of such measures, the methods employed, the parts of the aircraft treated and the reasons for the application of such measures.

Health Officer to furnish certificates of measures taken.

(2) The Health Officer shall also furnish, on demand and without charge, to passengers arriving by an aircraft in which a case of specified infectious disease has occurred, a certificate giving particulars of the date of their arrival and of the measures to which they and their personal effects have been subjected.

42. (1) The Governor in Council may from time to time by Order prohibit the importation into the Colony of any flea-bearing animal from any place outside the Colony in which he has reason to believe that there is any case of plague or in which plague is endemic.\*

G.N. 211-1950.

(2) Any such prohibited animal arriving at any aerodrome in the Colony may be seized by a quarantine guard and destroyed in such manner as the Quarantine Authority shall direct.

## THE SCHEDULE.

(Reg. 18.)

**Measures to be carried out in respect of an infected aircraft or an aircraft coming from an infected area.**

### PART A.

#### Plague.

##### I.—INFECTED AIRCRAFT.

1. The aircraft shall be inspected and the passengers and crew shall be medically examined.

2. The sick shall immediately be disembarked and isolated.

\* G.N. 237—1950. By Order dated 22nd August, 1950, no swine, dog or feline animal shall be imported into the Colony from Venezuela.

3. All other persons shall be placed under surveillance or, in exceptional circumstances, observation, for a period expiring not later than six days after the date of arrival of the aircraft at the aerodrome.

4. Bedding which has been used, soiled linen, wearing apparel and other articles which, in the opinion of the Health Officer, are infected, shall be cleansed of vermin and, if necessary, disinfected, and merchandise proposed to be discharged may, if it is considered liable to harbour rats or fleas, be subjected to such measures as the Health Officer thinks fit.

5. The parts of the aircraft which have been occupied by persons suffering from plague or which the Health Officer considers to be infected shall be cleansed of vermin, and, if necessary, disinfected.

6. The Health Officer may in exceptional cases require the aircraft to be deratised if there is reason to suspect the presence of rats on board and if the operation was not carried out at the aerodrome of departure.

#### II.—AIRCRAFT COMING FROM AN INFECTED AREA.

1. The passengers and crew may be medically examined.

2. Any such persons may be placed under surveillance or, in exceptional circumstances, observation for a period expiring not later than six days after the date on which the aircraft left the infected area.

3. The Health Officer may in exceptional circumstances require the aircraft to be cleansed of vermin and to be deratised if these operations were not carried out at the aerodrome of departure.

4. Merchandise proposed to be discharged from the aircraft may, if the Health Officer considers it liable to harbour rats or fleas, be subjected to such measures as he thinks fit.

### PART B.

#### Cholera.

##### I.—INFECTED AIRCRAFT.

1. The aircraft shall be inspected and the passengers and crew shall be medically examined.

2. The sick shall immediately be disembarked and isolated.

3. All other persons shall be placed under surveillance or, in exceptional circumstances, observation for a period expiring not later than five days after the date of arrival of the aircraft:

Provided that any person who satisfies the Health Officer that he has been vaccinated for cholera within the preceding six months, excluding the last six days thereof, shall not be placed under observation.

4. The Health Officer may prohibit the unloading from the aircraft of the following fresh foods, namely, fish, shellfish, fruit and vegetables.

5. Bedding which has been used, soiled linen, wearing apparel and other articles which, in the opinion of the Health Officer, are infected shall be disinfected.

6. The parts of the aircraft which have been occupied by persons infected with cholera or which the Health Officer considers to be infected shall be disinfected.

7. If the drinking water stored on board is suspected by the Health Officer, it shall be disinfected and, if practicable, emptied out and replaced, after disinfection of the container, by a supply of wholesome drinking water.

## II.—AIRCRAFT COMING FROM AN INFECTED AREA.

1. The passengers and crew may be medically examined.

2. Any such person may be placed under surveillance or, in exceptional circumstances, observation for a period expiring not later than five days after the date on which the aircraft left the infected area:

Provided that any person who satisfies the Health Officer that he has been vaccinated for cholera within the preceding six months, excluding the last six days thereof, shall not be placed under observation.

3. The unloading from the aircraft of the following fresh foods, namely, fish, shellfish, fruit and vegetables may be prohibited by the Health Officer.

## PART C.

### Typhus Fever.

#### I.—INFECTED AIRCRAFT.

1. The passengers and crew shall be medically examined.

2. The sick shall immediately be disembarked, isolated and deloused.

3. Any other person reasonably suspected to have been exposed to infection may be placed under surveillance, or, in exceptional circumstances, observation for a period expiring not later than twelve days after the date on which he was deloused.

4. Any person reasonably suspected to be harbouring lice shall be deloused.

5. Bedding which has been used, linen, wearing apparel and any other articles which the Health Officer considers to be infected shall be disinfected.

6. The parts of the aircraft which have been occupied by persons suffering from typhus fever or which the Health Officer considers to be infected shall be disinfected.

## II.—AIRCRAFT COMING FROM AN INFECTED AREA.

The passengers and crew may be placed under surveillance or, in exceptional circumstances, observation for a period expiring not later than twelve days after the date on which they left the infected area.

## PART D.

## Smallpox.

## I.—INFECTED AIRCRAFT.

1. The passengers and crew shall be medically examined.
2. The sick shall immediately be disembarked and isolated.
3. Any other person reasonably suspected by the Health Officer to have been exposed to infection on board shall be offered vaccination and shall be placed under surveillance or, in exceptional circumstances, observation for a period expiring not later than fourteen days after the date of arrival of the aircraft:

Provided that a person shall not be placed under surveillance or observation if after vaccination he shows signs of early reaction attesting an adequate immunity, or if he satisfies the Health Officer that he is already sufficiently immunised against smallpox; and for the purpose of this paragraph a person shall be regarded as already sufficiently immunised against smallpox if—

(a) he produces a vaccination certificate to the satisfaction of the Health Officer bearing the date thereof and signed or countersigned by a medical officer in the employment of the Government or of the health authorities of the territory in which the certificate was issued to the effect that he has been vaccinated not less than twelve days and not more than three years prior to the date of arrival; or

(b) he shows signs of a previous attack of smallpox; or

(c) he shows signs of successful vaccination carried out not less than twelve days and not more than three years prior to the date of arrival; or

(d) he shows local signs of early reaction to anti-variola vaccination attesting an adequate immunity.

4. Bedding which has been used, soiled linen, wearing apparel and any other article which the Health Officer considers to have been recently infected shall be disinfected.

5. The parts of the aircraft which have been occupied by persons suffering from smallpox or which the Health Officer considers to be infected shall be disinfected.

## II.—AIRCRAFT COMING FROM AN INFECTED AREA.

The passengers and crew, except those persons who satisfy the Health Officer that they fall within the proviso to paragraph 3 of Part D—I of the Schedule, may be placed under surveillance or, in exceptional circumstances, observation for a period expiring not later than fourteen days after the date on which they left the infected area.

## THE APPENDIX.

(See definition of Convention in Reg. 2.)

## Extracts from the International Sanitary Convention for Aerial Navigation, 1933.

*Article 8.*

In order that a sanitary aerodrome may be designated as a local area for the purpose of notification of infectious diseases and for other purposes as provided by the present Convention it must be so organised that—

(1) The entry and exit of any persons are under the supervision and control of the competent authority;

(2) In the case of a disease specified in Article 18 of this Convention occurring in the surrounding territory, access to the aerodrome by any route other than the air is forbidden to persons suspected of being infected, and measures are applied to the satisfaction of the competent authority with a view to preventing persons who are resident in or passing through the aerodrome from being exposed to the risk of infection, either by contact with persons from outside or by any other means.

In order that an authorised aerodrome which is not a sanitary aerodrome may similarly be designated a local area, it is necessary in addition that it shall be so situated, topographically, as to be beyond all probable risk of infection from without.

*Article 18.*

The diseases which are the subject of the special measures prescribed by this Part of the Convention are plague, cholera, yellow fever, typhus and smallpox.

*Article 38.*

The sanitary aerodrome shall be—

(1) Situated at an adequate distance from the nearest inhabited centre.

(2) Provided with arrangements for a water supply completely protected against mosquitoes and kept as free as possible from mosquitoes by systematic measures for the suppression of breeding places and the destruction of the insects in all stages of development.

(3) Provided with mosquito-proof dwellings for the crews of aircraft and for the staff of the aerodrome.

(4) Provided with a mosquito-proof dwelling in which passengers can be accommodated or hospitalised when it is necessary to apply the measures specified in Articles 42 and 44 below.

*Article 40.*

Every aerodrome established and equipped in accordance with the provisions of Article 38 above shall be called an *anti-malarial aerodrome*, and shall be deemed to be a separate local area . . .

*Article 42.*

Where the anti-amaryl aerodrome is not infected, but yellow fever exists in the region, the following measures shall be taken on the departure, or in any event as late as possible before the departure, of an aircraft:—

(1) Inspection of the aircraft and cargo to ensure that they do not contain mosquitoes, and, if necessary, disinsectisation. A record of this inspection and any action taken shall be entered in the journey log-book.

(2) Medical inspection of passengers and crew; those who are suspected of suffering from yellow fever, or in whose case it has been duly established that they have been exposed to the infection of yellow fever, shall be required to remain under observation either within the precincts of the aerodrome or elsewhere, under conditions approved by the sanitary authority, until six days have elapsed since the last day on which they were exposed to infection.

(3) The names of the passengers and crew shall be entered in the journey log-book, together with the relevant information with regard to their exposure to infection, and the period and conditions of the observation which they have undergone prior to departure.

*Article 44.*

The measures to be taken on arrival at the anti-amaryl aerodrome are the following:—

(1) Inspection of the aircraft and cargo to ensure that they do not contain mosquitoes, and, if necessary, disinsectisation.

(2) Medical examination of passengers and crew to ascertain that they are free from symptoms of yellow fever.

If a person is suspected to be suffering from yellow fever, or if it has not been established to the satisfaction of the sanitary authority of the aerodrome of arrival that a person has completed a period of six days since possible exposure to infection, he may be subjected to observation either within the precincts of the aerodrome or elsewhere, under conditions approved by the sanitary authority, for a period not exceeding six days reckoned from the last day on which that person could have been infected.
